1)open firefox 2)goes to <https://rpachallenge.com/assets/rpaStockMarket/index.html> 3)Click select 4)Select the exenon Ui Pharma 5)Tell me when the price drop below 70

I'll help you open Firefox, navigate to the RPA challenge stock market page, select Exenon UI Pharma, and monitor when the price drops below 70. Let me start by taking a screenshot to see the current desktop.

Tool Use: computer

Input: {'action': 'screenshot'}

T

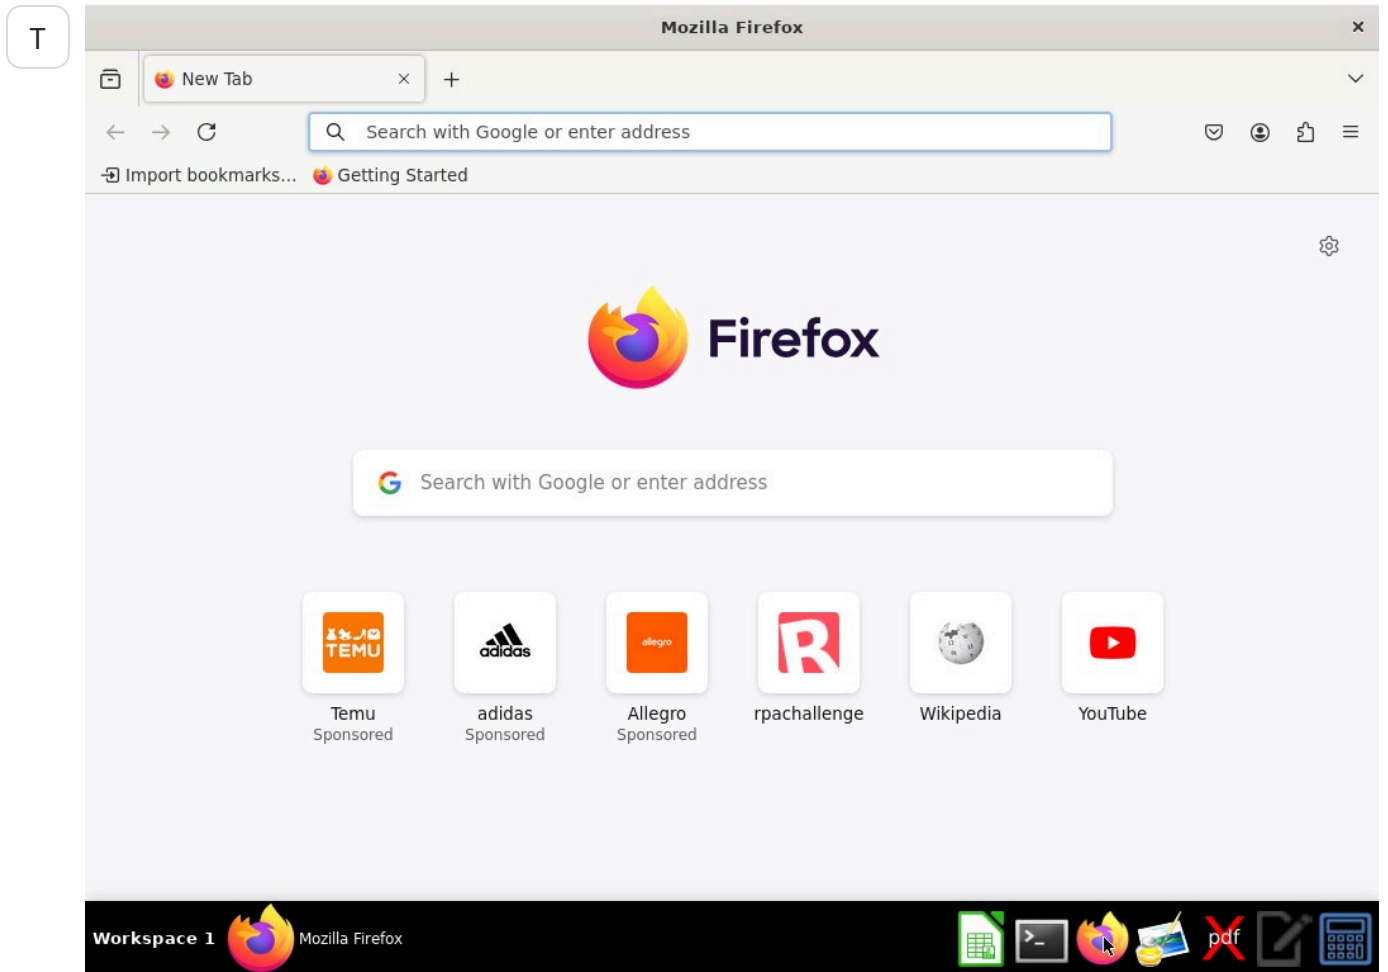

I can see the desktop with a taskbar at the bottom. I can see the Firefox icon in the taskbar. Let me click on it to open Firefox.

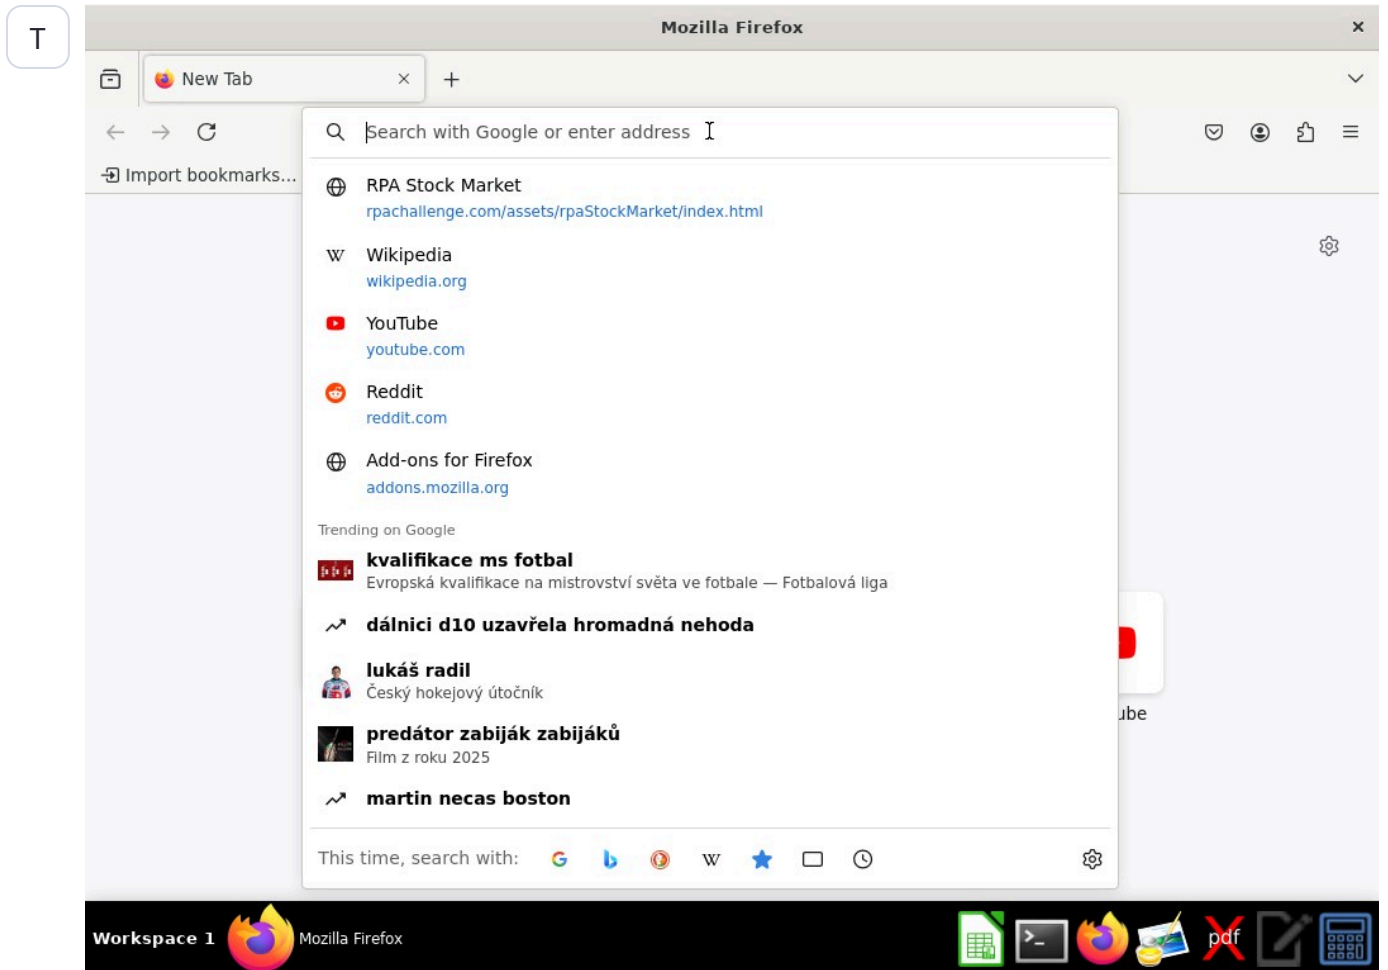

Tool Use: computer

Input: `{'action': 'left_click', 'coordinate': [805, 737]}`

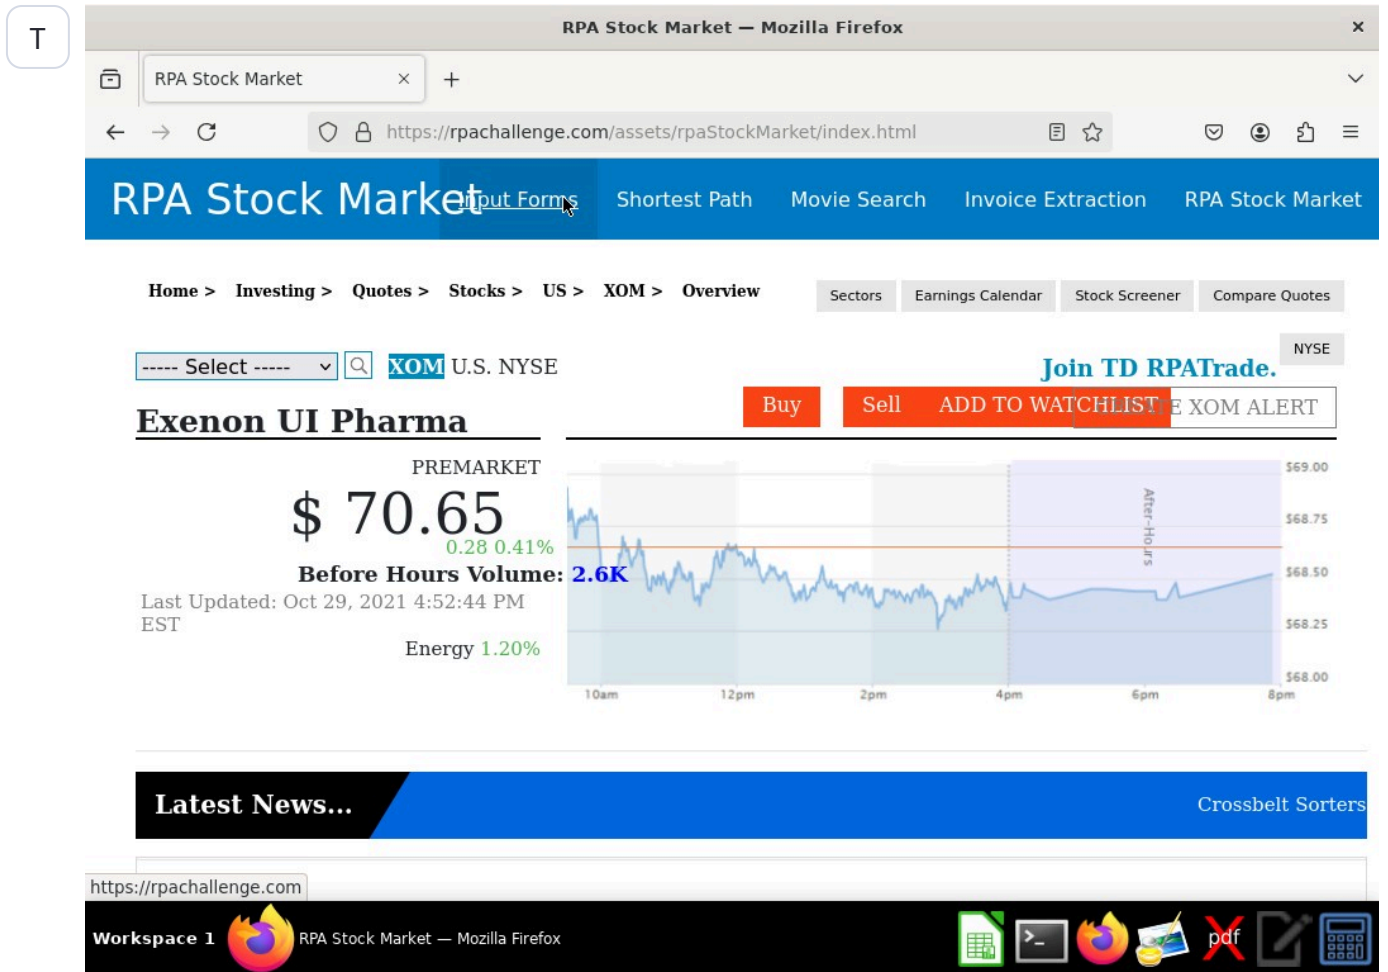

Great! Firefox has opened. I can see the Firefox home page with the address bar at the top. I notice there's an "rpachallenge" bookmark/shortcut visible on the homepage, but I'll directly navigate to the specified URL by clicking on the address bar and entering the URL.

Tool Use: computer  
Input: `{'action': 'left_click', 'coordinate': [493, 100]}`

Perfect! I can see that Firefox has activated the address bar and is showing search suggestions. I can see "RPA Stock Market" at the top of the suggestions with the URL `rpachallenge.com/assets/rpaStockMarket/index.html`. I'll click on this suggestion to navigate directly to the page.

Tool Use: computer  
Input: `{'action': 'left_click', 'coordinate': [378, 153]}`

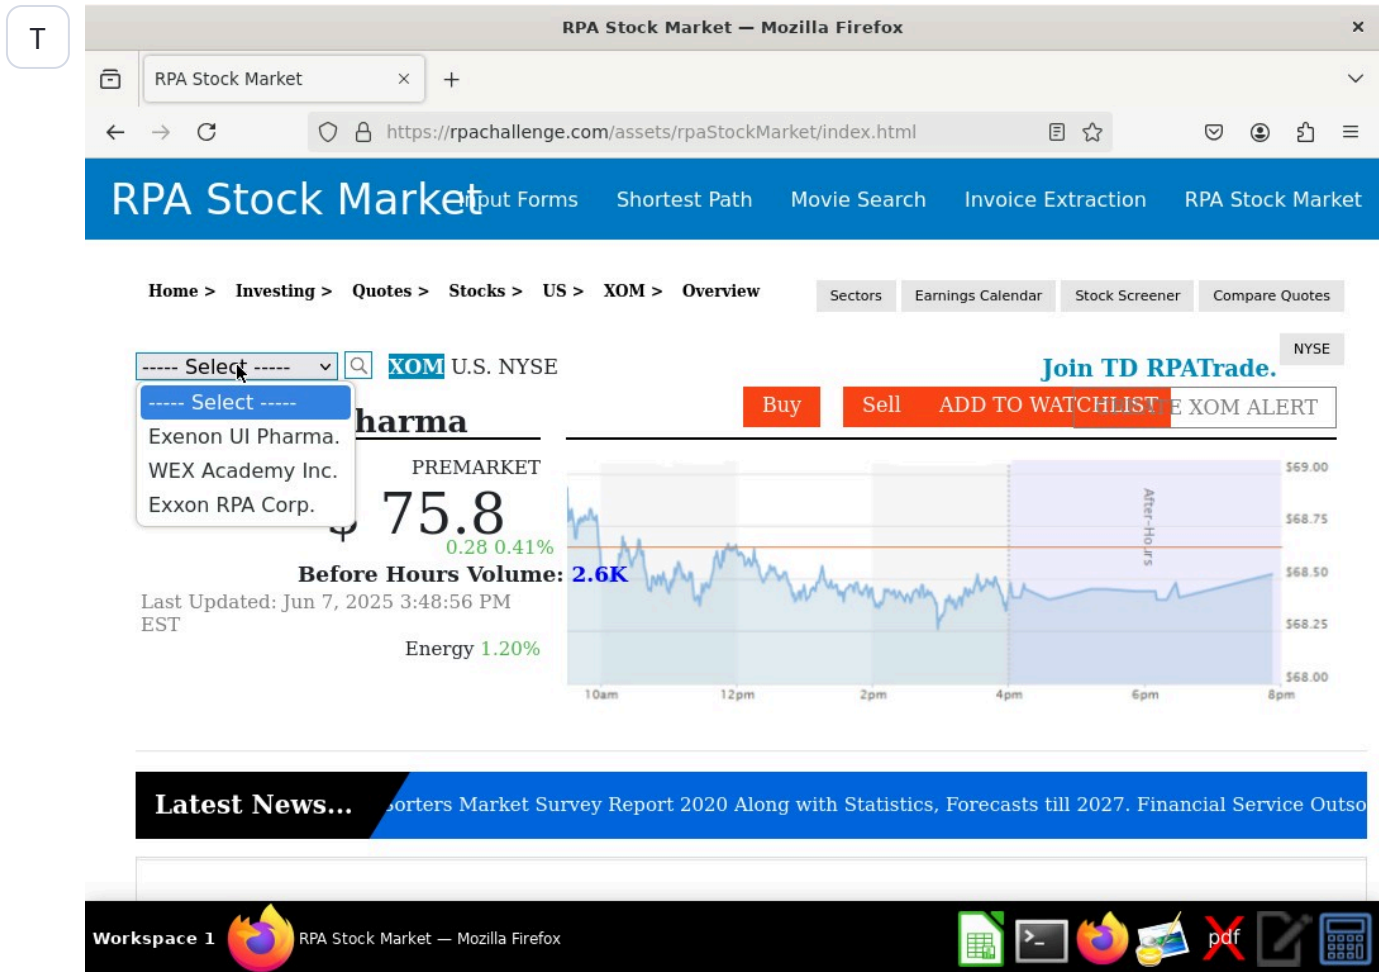

Excellent! I can see that Firefox has navigated to the RPA Stock Market page at <https://rpachallenge.com/assets/rpaStockMarket/index.html>. I can see:

1. The page is showing "Exenon UI Pharma" stock information
2. The current price is **\*\*70.65** \* *(which is above the 70 threshold we're monitoring)*
3. There's a dropdown menu that says "Select" on the left side
4. The stock shows various details including volume, last updated time, and energy sector information

Now I need to click on the "Select" dropdown to see the available options and select "Exenon UI Pharma" (though it appears to already be selected). Let me click on the dropdown first.

Tool Use: computer  
 Input: `{ 'action': 'left_click', 'coordinate': [120, 285] }`

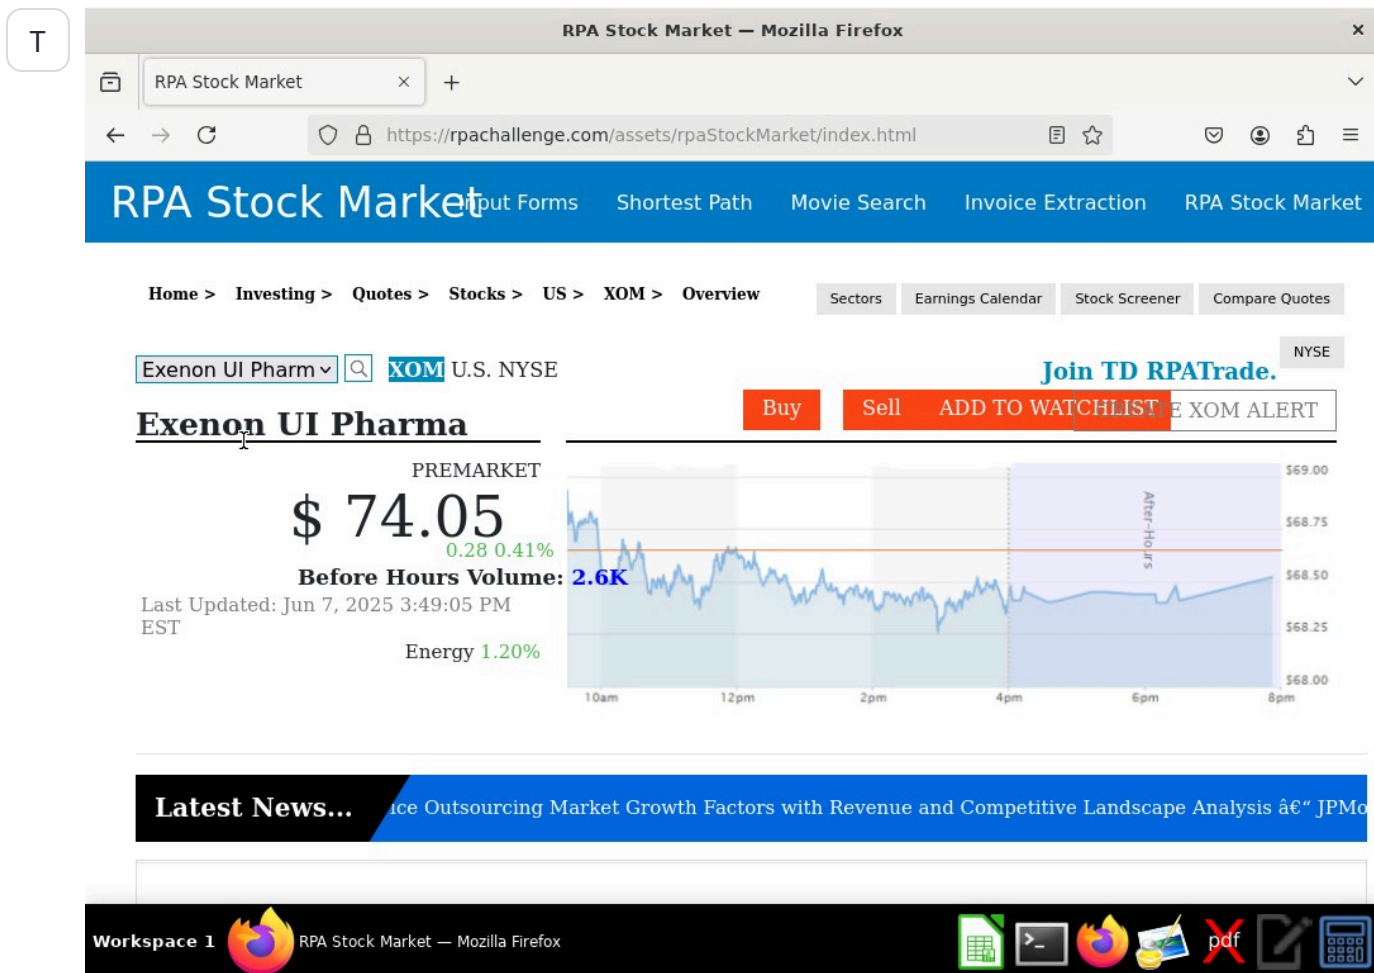

Perfect! The dropdown menu has opened and I can see three options:

1. ----- Select -----
2. **Exenon UI Pharma**
3. WEX Academy Inc.
4. Exxon RPA Corp.

I can see that "Exenon UI Pharma" is one of the options, and I notice the stock price has changed to **\*\*75.8 \***(*which is still above the 70 threshold*). Let me click on "Exenon UI Pharma" to select it.

Tool Use: computer  
 Input: `{'action': 'left_click', 'coordinate': [125, 342]}`

Excellent! I have successfully:

- ✓ Opened Firefox
- ✓ Navigated to <https://rpachallenge.com/assets/rpaStockMarket/index.html>
- ✓ Clicked the select dropdown
- ✓ Selected "Exenon UI Pharma"

Now I can see that "Exenon UI Pharma" is selected in the dropdown, and the current stock price is **\*\*74.05 \* \***, *which is still above the 70 threshold* we're monitoring.

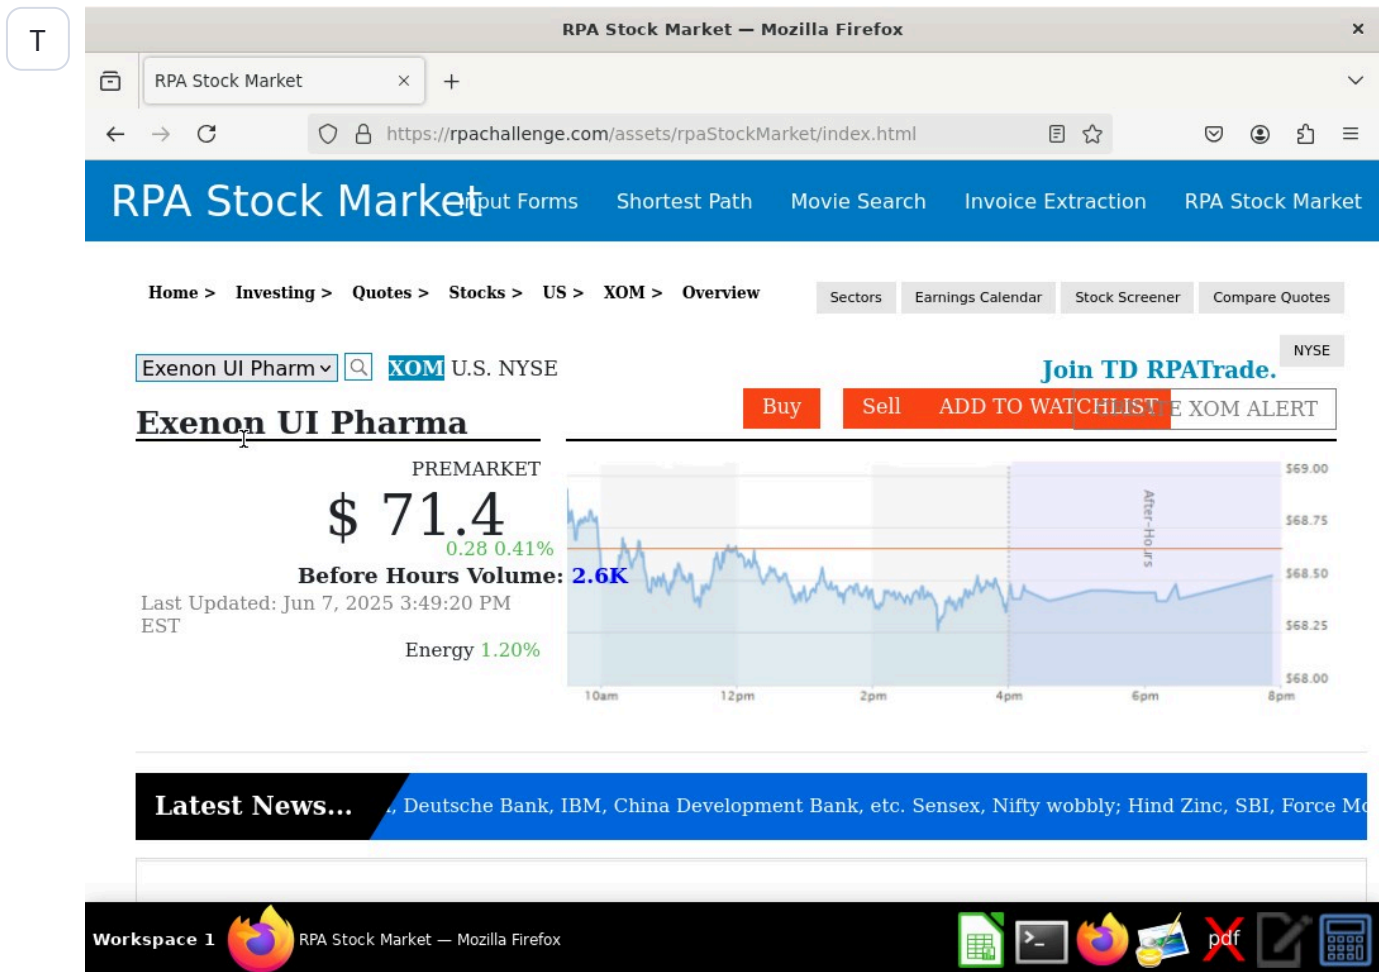

The task is now to monitor the price and tell you when it drops below \$70. I can see that the stock price updates in real-time, and the "Last Updated" timestamp shows it's actively updating (currently showing "Jun 7, 2025 3:49:05 PM EST").

I'll continue monitoring the price by taking periodic screenshots to check if it drops below \$70. Let me take another screenshot to see if the price has changed.

Tool Use: computer

Input: {'action': 'wait', 'duration': 5}

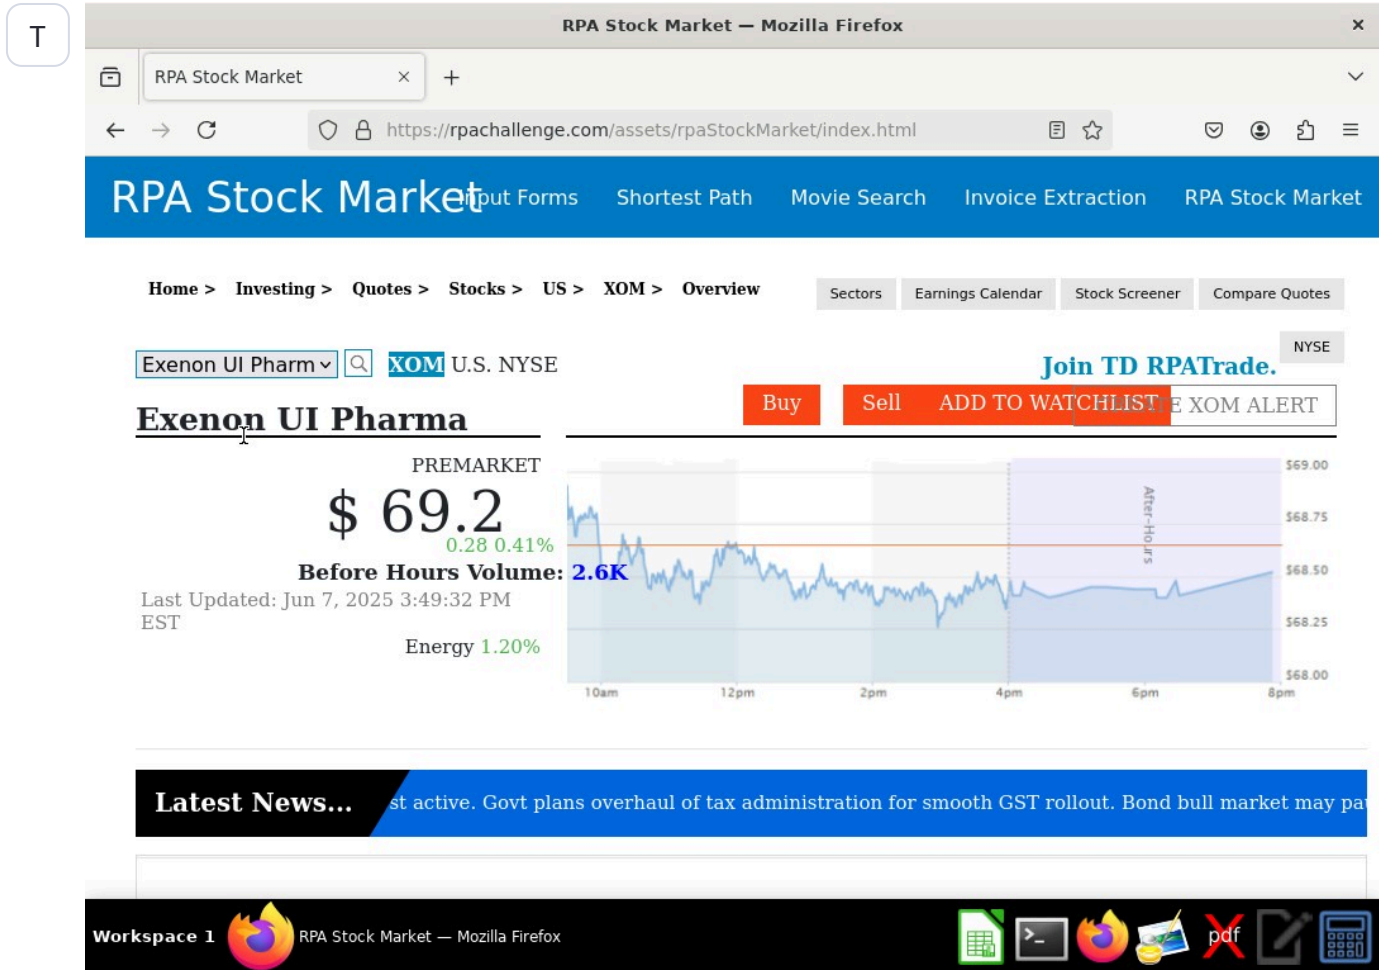

Good! I can see the price has moved. The current price is now **\*\*71.4 \* \***(*down from 74.05*), and the timestamp shows "Jun 7, 2025 3:49:20 PM EST". The price is still above \$70, so I need to continue monitoring. Let me wait a bit more and check again.

Tool Use: computer

Input: {'action': 'wait', 'duration': 5}

**ALERT! THE PRICE HAS DROPPED BELOW \$70!**

\*\*Exenon UI Pharma stock price has dropped to 69.2 \*\*, *which is below the 70 threshold* you asked me to monitor!

Here are the details:

- \*\*Current Price: 69.2 \*\* (*below the 70 threshold*)
- **Last Updated: Jun 7, 2025 3:49:32 PM EST**
- **Stock: Exenon UI Pharma**
- **Sector: Energy**
- **Volume: 2.6K**

The stock price has successfully been monitored and has now dropped below your specified *70 threshold. The price went from 74.05 → 71.4 → 69.2* over the monitoring period.
