1)open firefox 2)goes to <https://rpachallenge.com/assets/rpaStockMarket/index.html> 3)Click select 4)Select the exenon Ui Pharma 5)Tell me when the price drop below 70

I'll help you open Firefox, navigate to the RPA challenge website, select Exenon UI Pharma, and monitor when the price drops below 70. Let me break this down into steps.

First, let me take a screenshot to see the current desktop:

Tool Use: computer

Input: `{'action': 'screenshot'}`

T

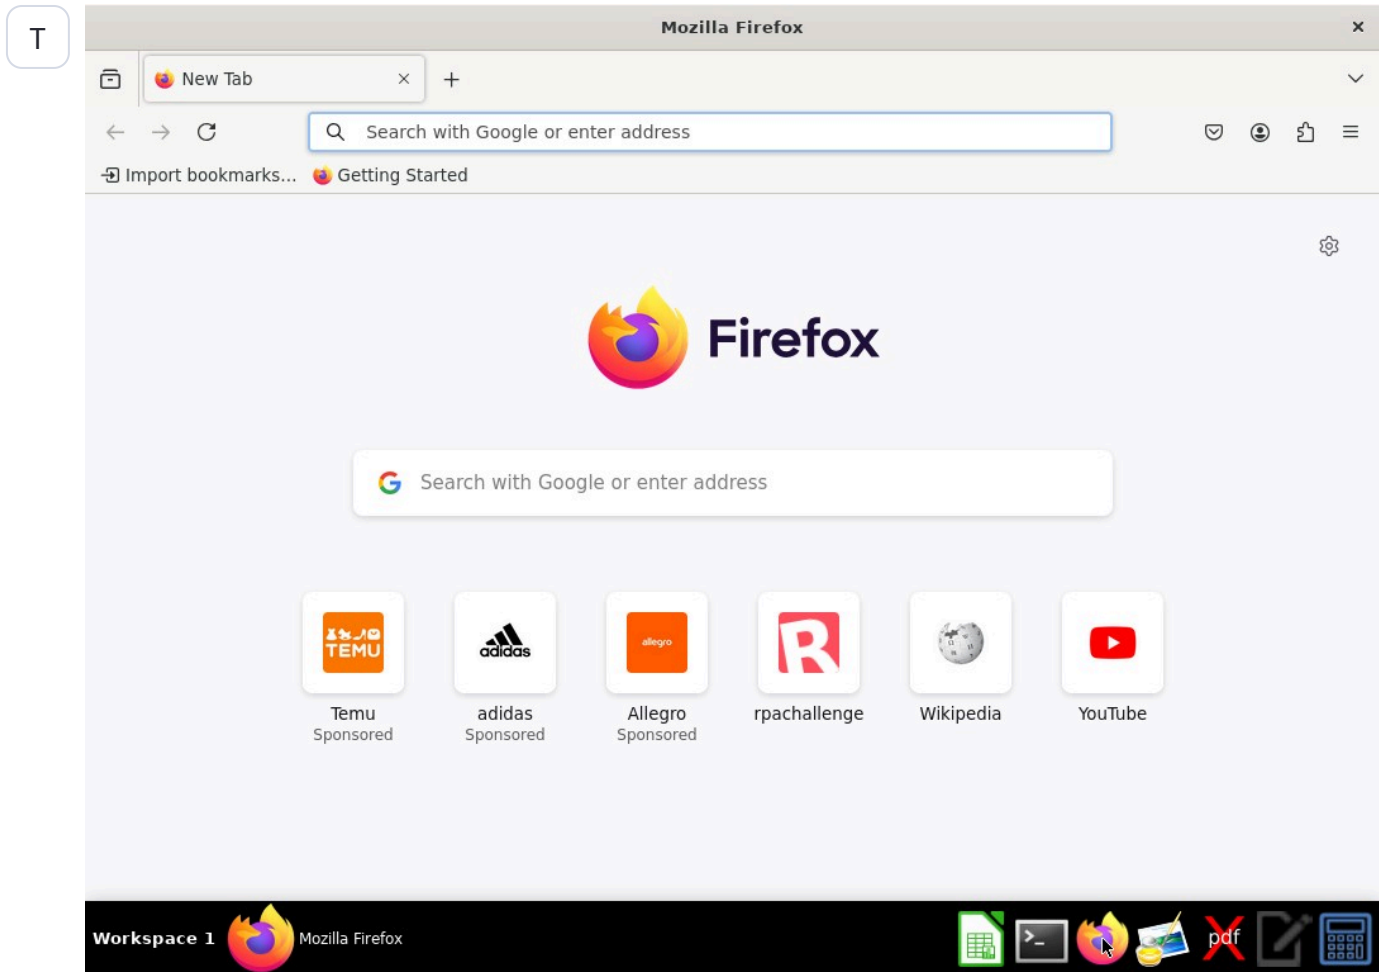

I can see the desktop with a taskbar at the bottom. I can see the Firefox icon (the orange and blue circular icon) in the taskbar. Let me click on it to open Firefox:

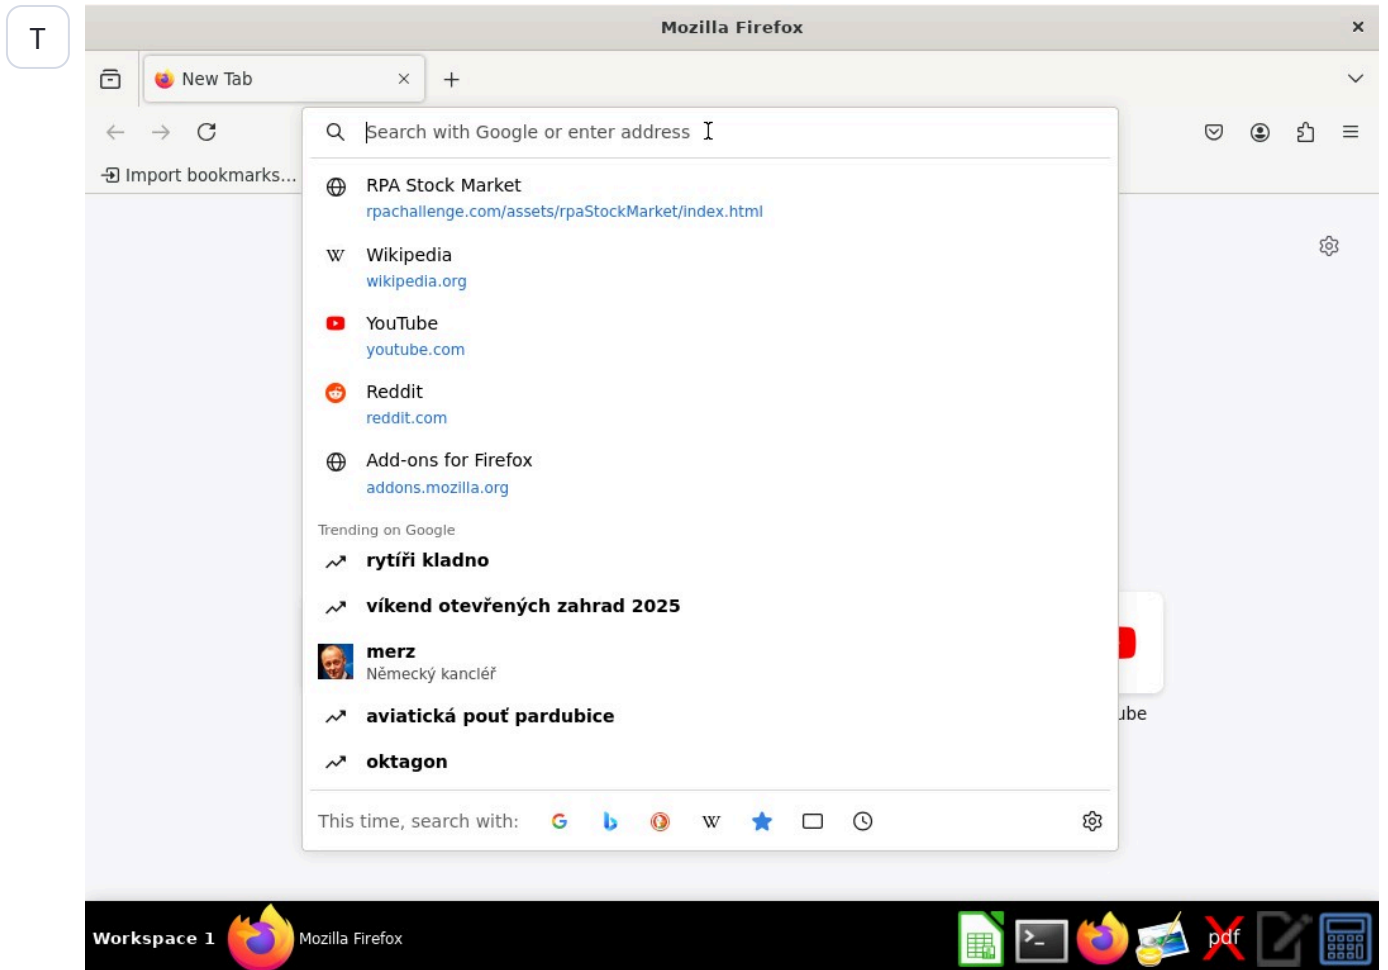

Tool Use: computer

Input: `{'action': 'left_click', 'coordinate': [804, 738]}`

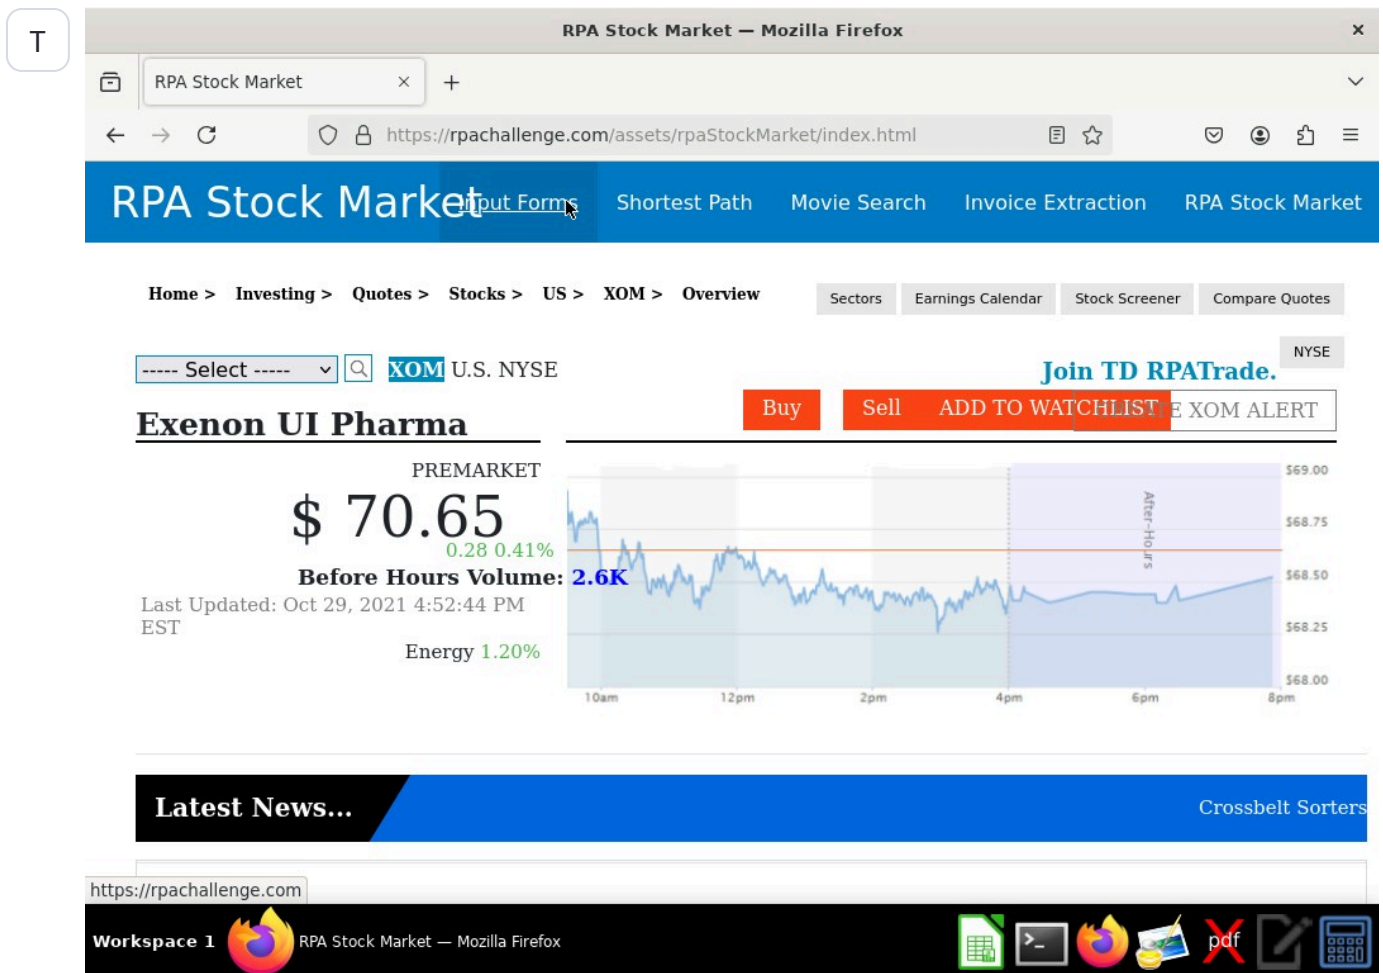

Great! Firefox has opened. I can see the Firefox start page with a search bar. I need to navigate to the URL you provided. I'll click on the address bar at the top and enter the URL:

Tool Use: computer  
Input: `{'action': 'left_click', 'coordinate': [492, 100]}`

Perfect! I can see that the address bar is active and there's even a suggestion for "RPA Stock Market" which shows the URL we need. I can see it in the dropdown menu. Let me click on the "RPA Stock Market" suggestion:

Tool Use: computer  
Input: {'action': 'left\_click', 'coordinate': [380, 153]}

Excellent! I have successfully navigated to the RPA Stock Market website and I can see that it has automatically selected "Exenon UI Pharma" for us. I can see:

1. The current stock price is **\*\*70.65 \* \***(*which is just above the 70 threshold you want me to monitor*)
2. The stock is showing a gain of 0.28 (0.41%)
3. There's a chart showing the stock's performance throughout the day

Now I need to monitor this price and alert you when it drops below \$70. I can see the page is already displaying Exenon UI Pharma data. Let me take periodic screenshots to monitor the price changes.

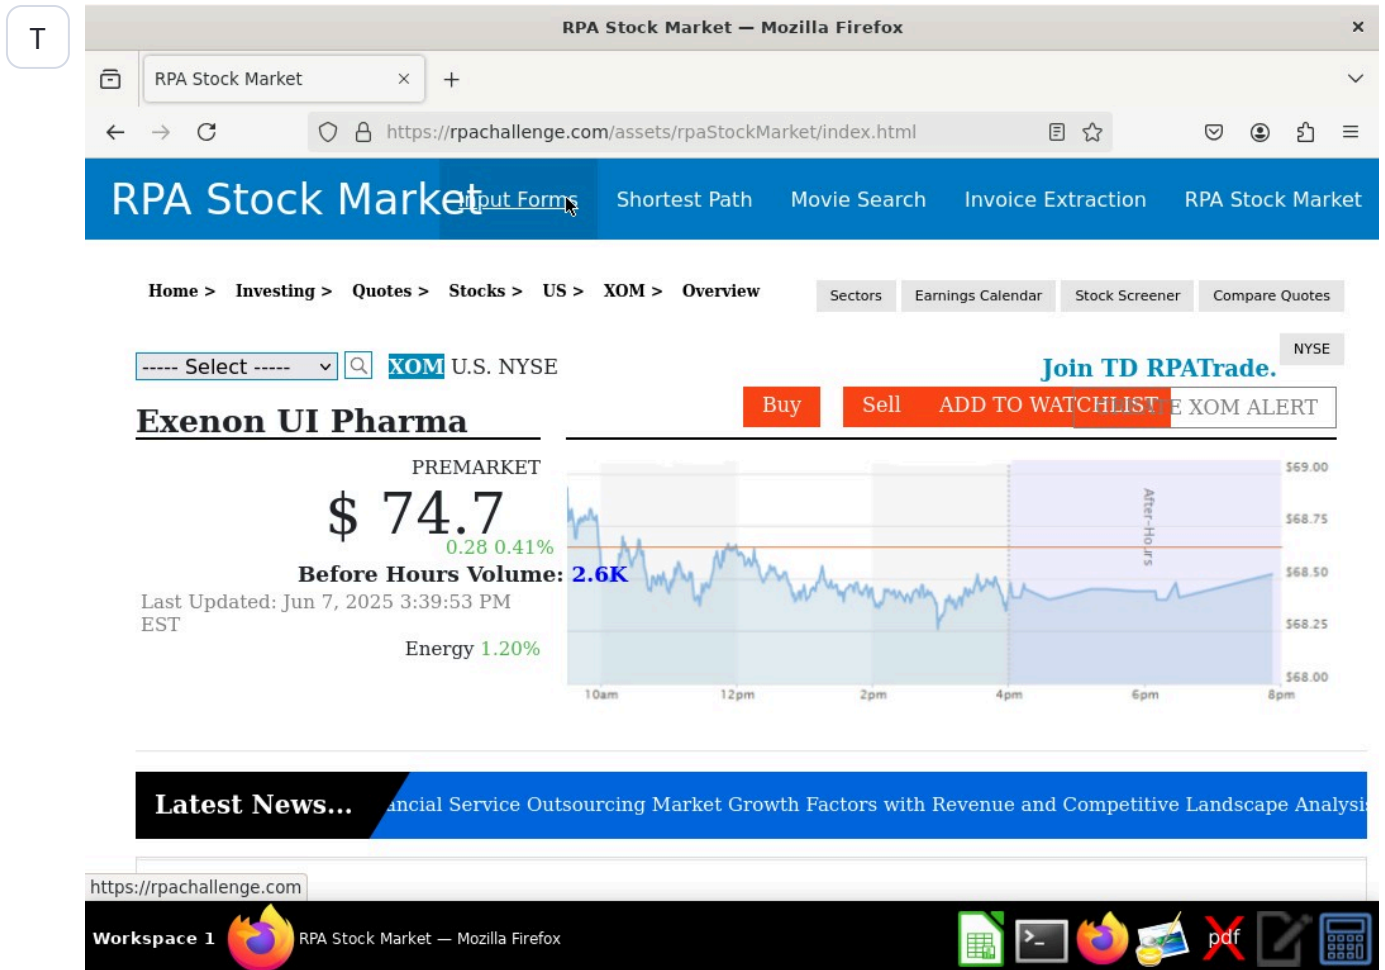

Current status: **Price is 70.65 — above your 70 threshold**

Let me wait a moment and then check the price again:

Tool Use: computer

Input: {'action': 'wait', 'duration': 10}

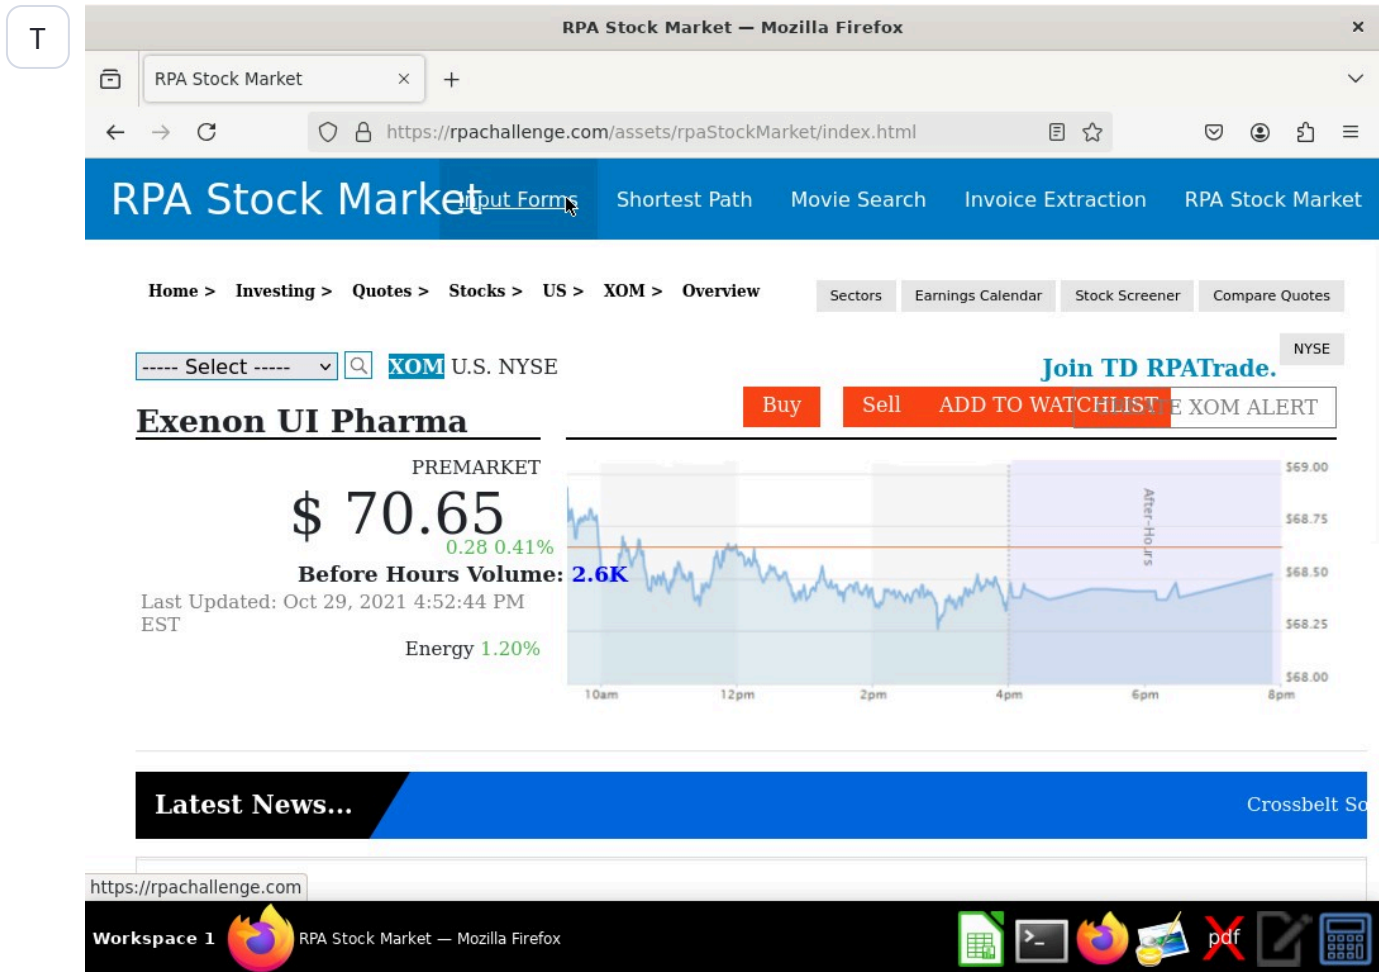

I notice the price has changed! The stock price is now **\*\*74.7 \***, *which is actually higher than before (it was 70.65)*. The price is still above the \$70 threshold you specified.

I can see the "Last Updated" time has changed to "Jun 7, 2025 3:39:53 PM", so the data is updating in real-time.

Let me continue monitoring the price by refreshing the page or waiting for updates. I'll refresh the page to get the latest data:

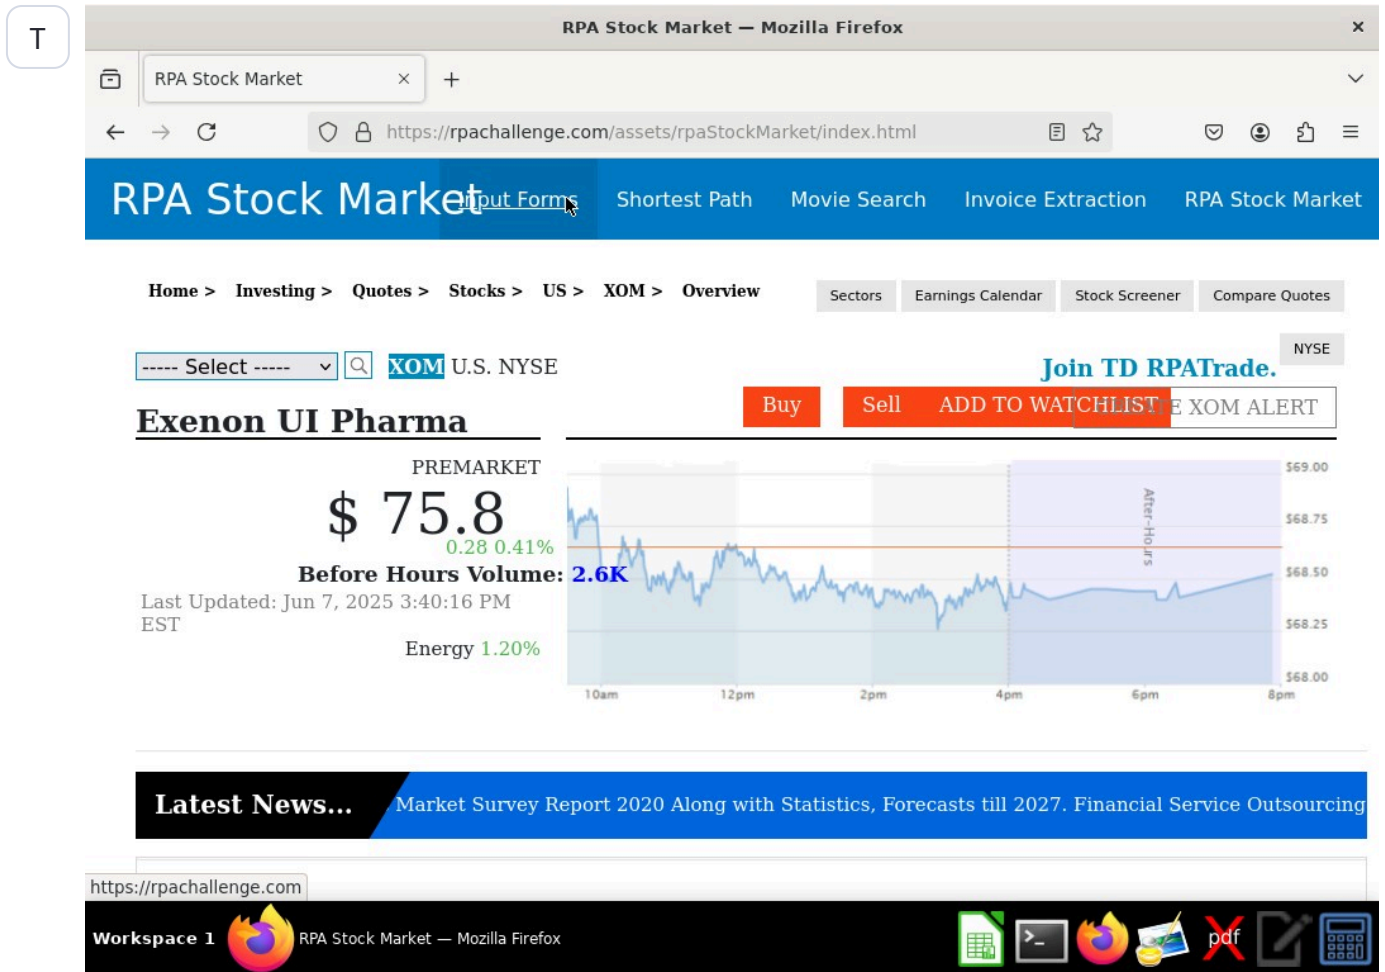

Tool Use: computer  
 Input: {'action': 'key', 'text': 'F5'}

The price has returned to **\$70.65** after the refresh. Let me continue monitoring this price. I'll wait a bit more and then check again:

Tool Use: computer

Input: {'action': 'wait', 'duration': 5}

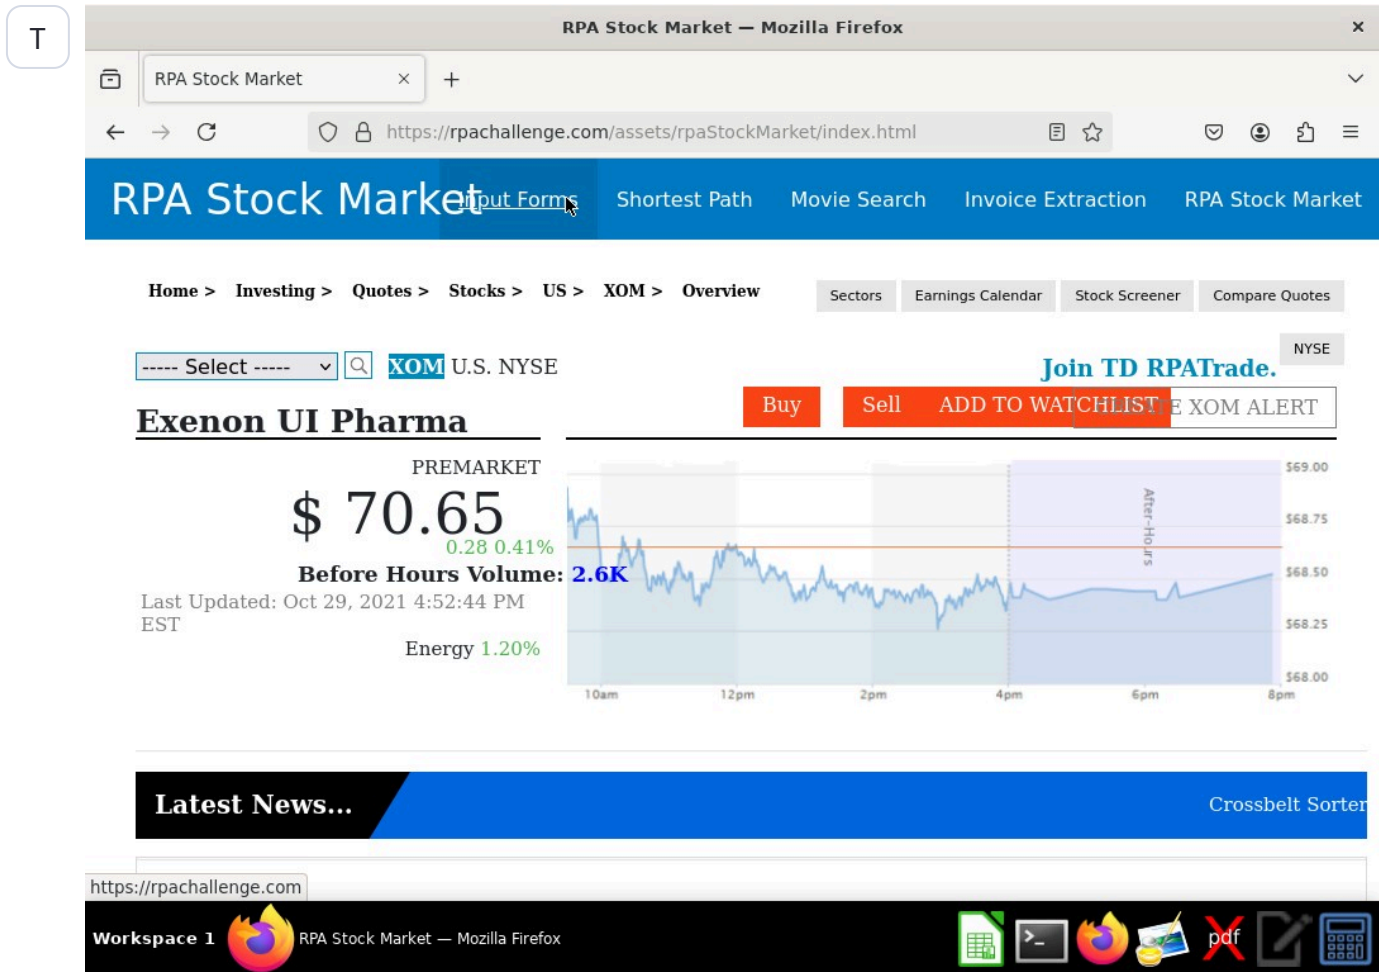

The price has increased again to \$75.8! The stock is actually trending upward from what I can see. The last updated time shows "Jun 7, 2025 3:40:16 PM".

Let me continue monitoring. I'll refresh the page again to see if there are any changes:

Tool Use: computer  
Input: {'action': 'key', 'text': 'F5'}

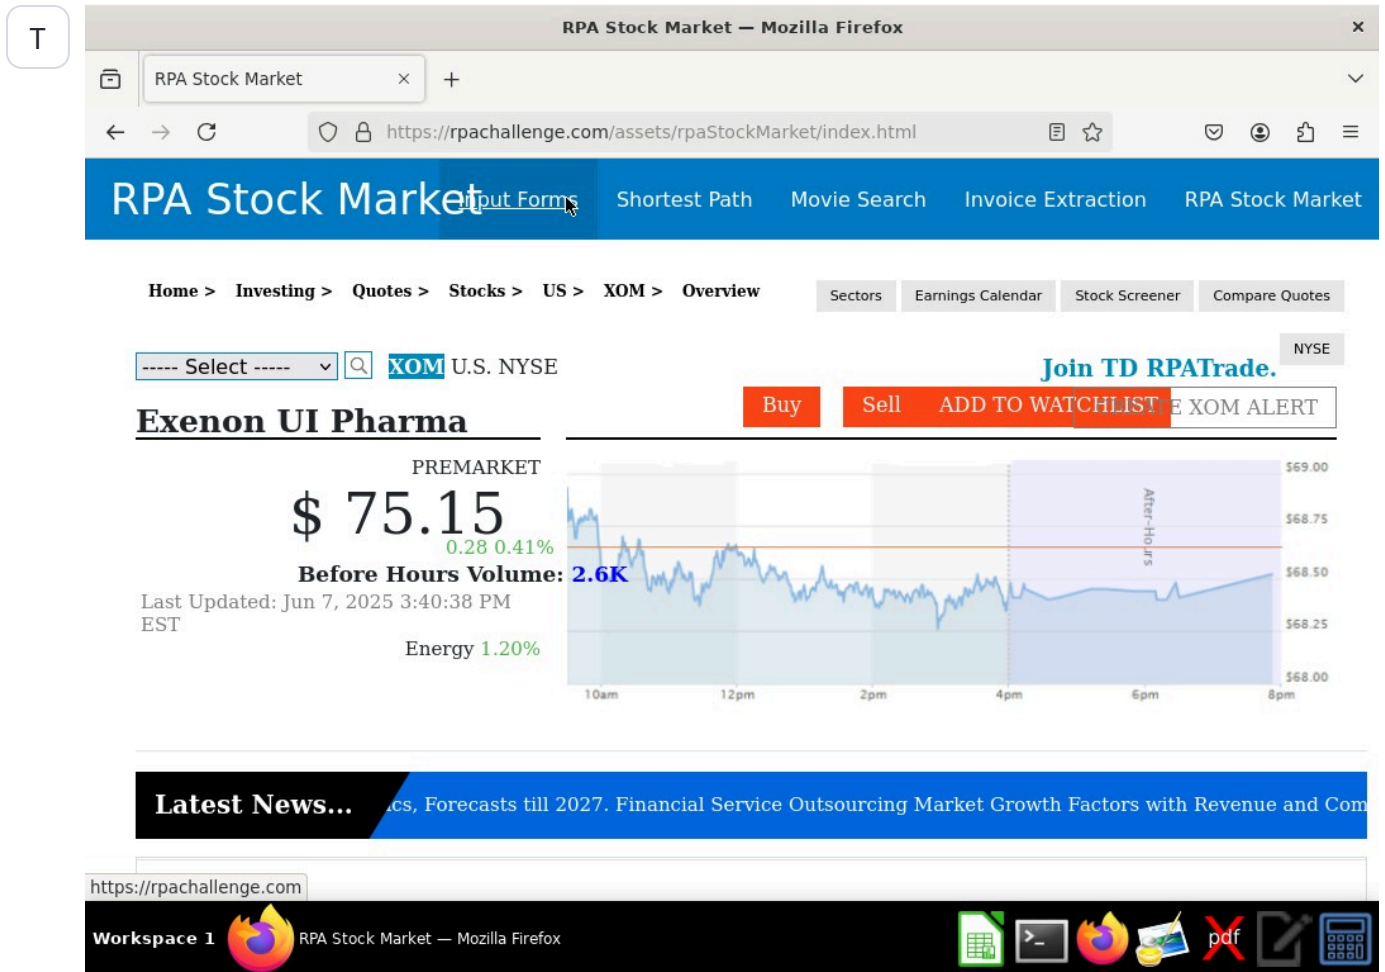

After the refresh, it's back to **\$70.65**. Let me wait a moment and then check again to see if the price fluctuates more:

Tool Use: computer

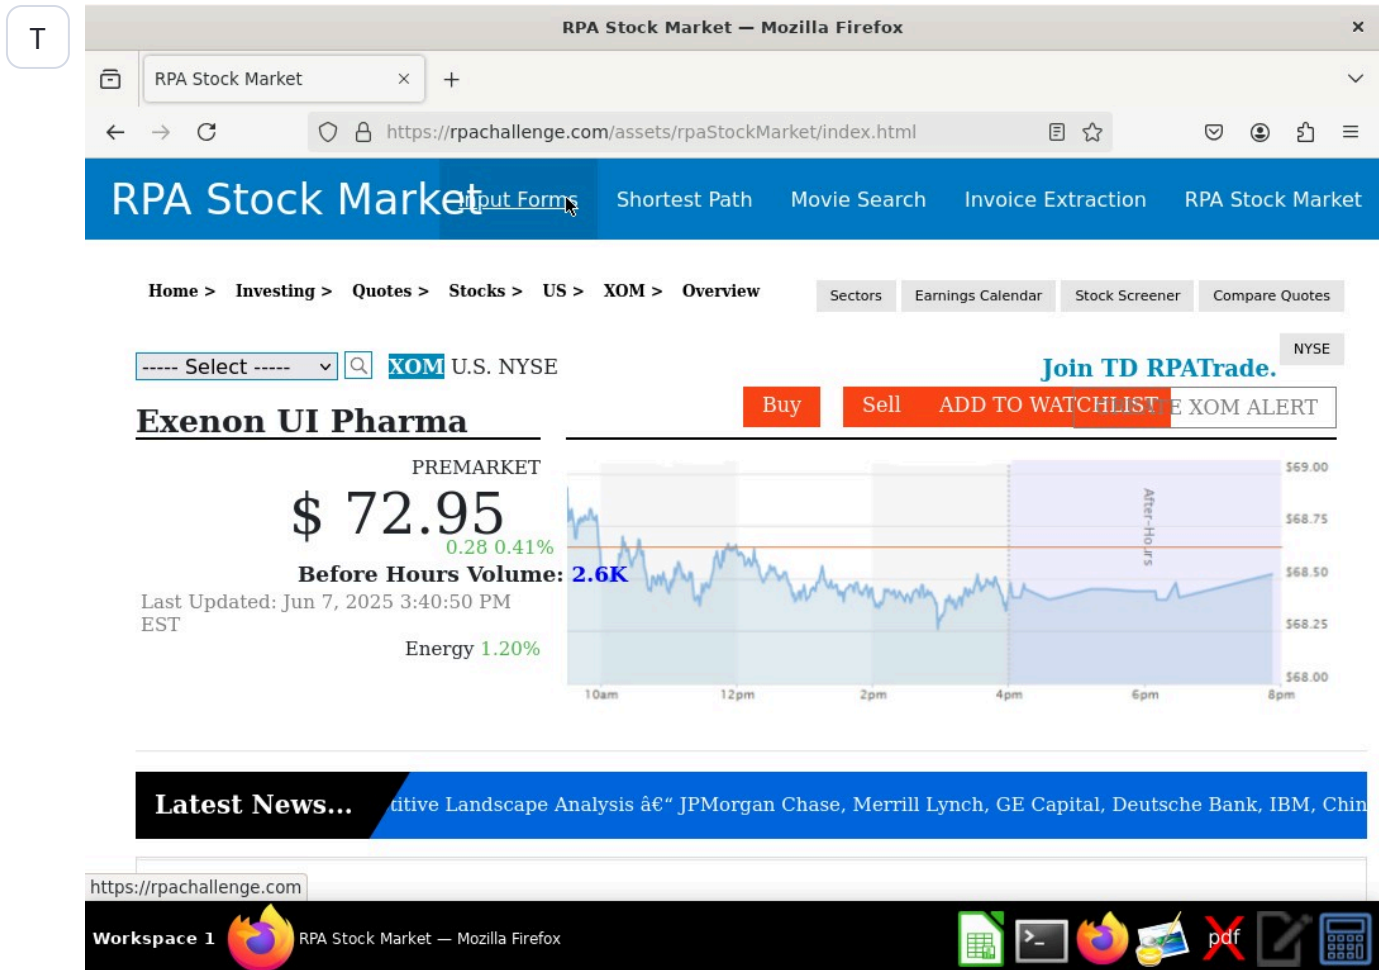

Input: `{'action': 'wait', 'duration': 10}`

The price has increased to **\*\*75.15 \***  
*\*now!The last updated time shows "Jun 7, 2025 3 : 40 : 38 PM".The stock is continuing to fluctuate but hasn't dropped below 70 yet.*

Let me continue monitoring. I'll wait and refresh again:

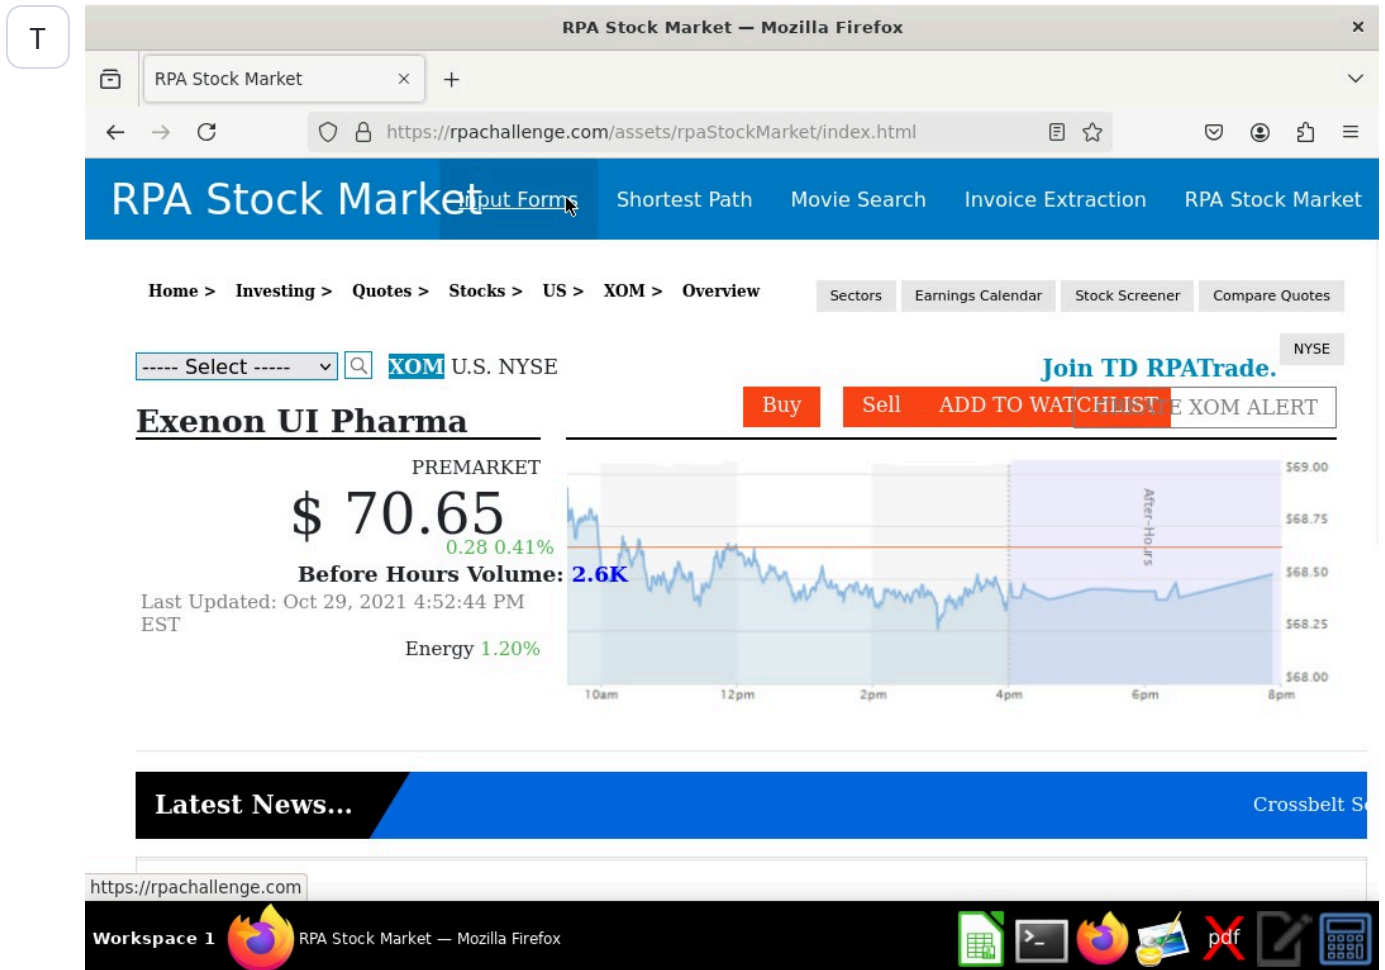

Tool Use: computer  
 Input: {'action': 'wait', 'duration': 5}

The price is now **72.95** at 3 : 40 : 50 PM. Still above 70. Let me continue monitoring with another refresh:

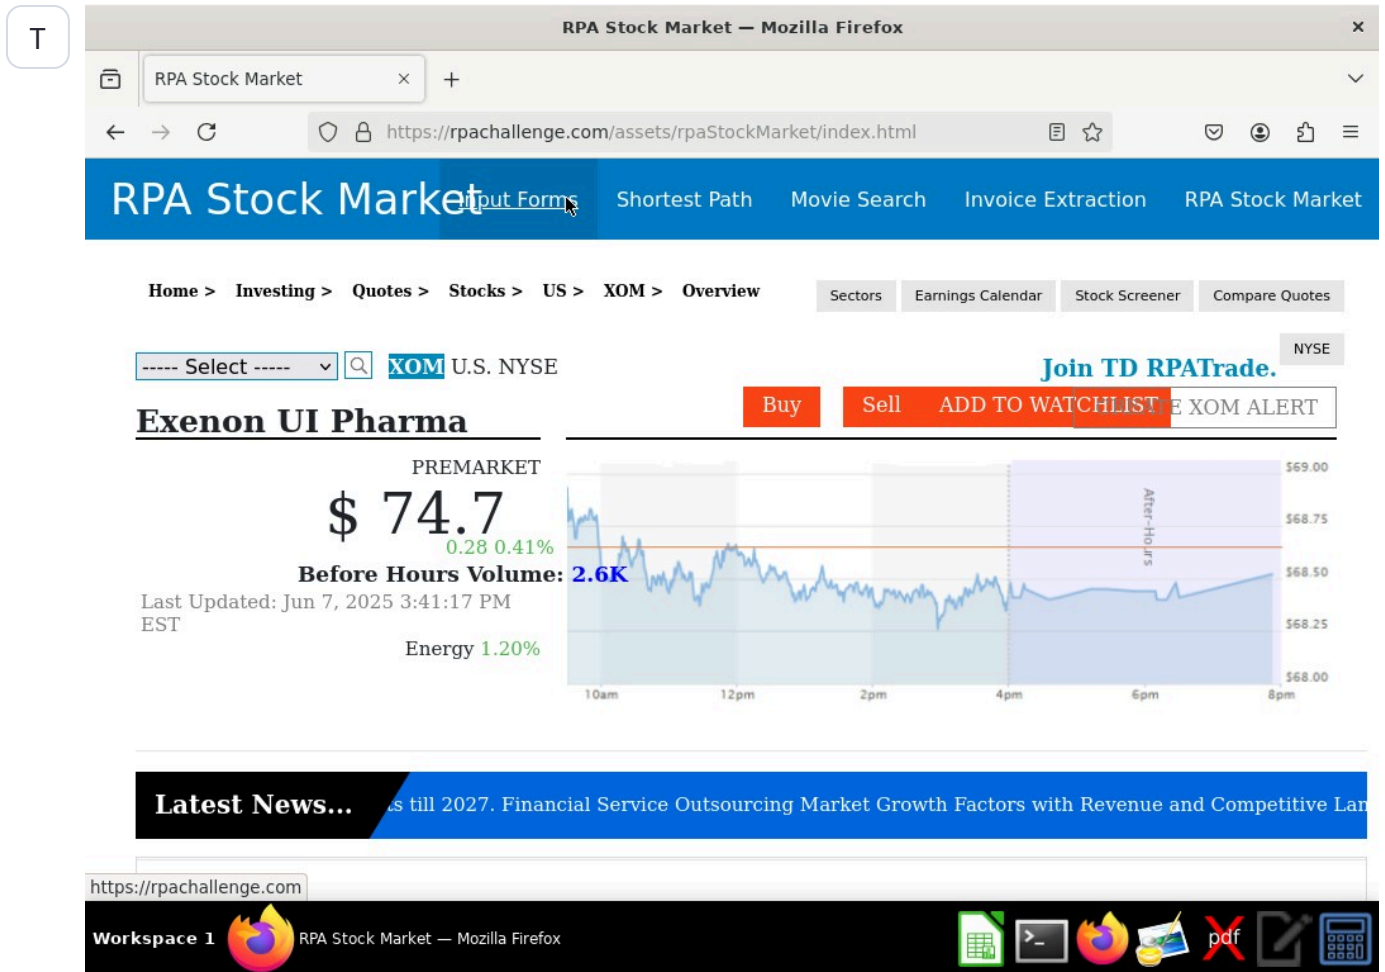

Tool Use: computer

Input: {'action': 'key', 'text': 'F5'}

Back to \$70.65 again. Let me continue monitoring. I'll wait a bit more and then check:

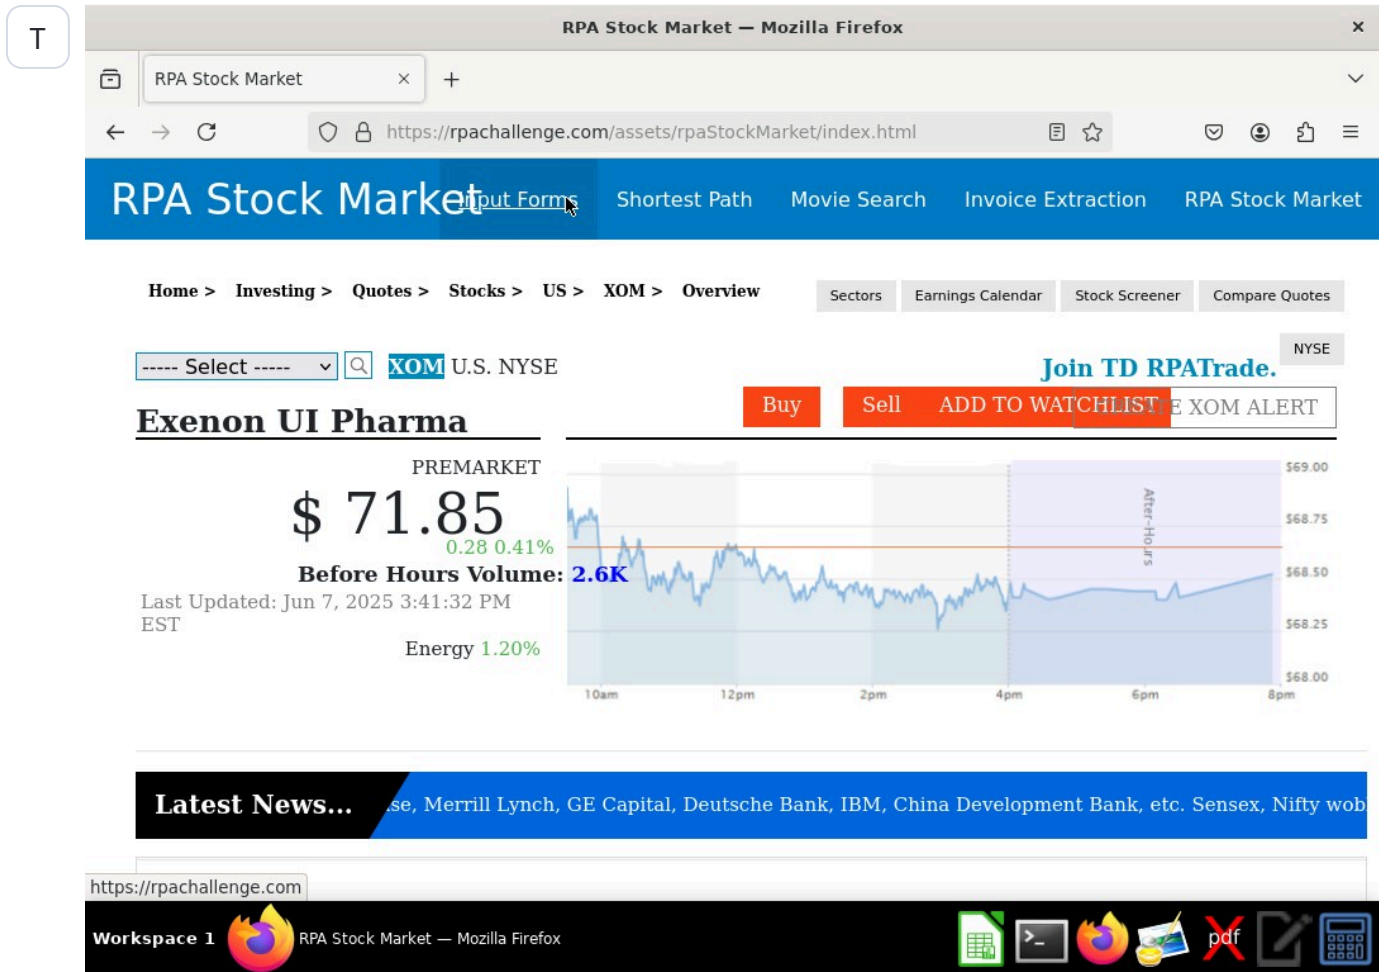

Tool Use: computer  
Input: {'action': 'wait', 'duration': 10}

Now it's \$74.7 at 3:41:17 PM. Let me continue monitoring with another wait and check:

Tool Use: computer

Input: {'action': 'wait', 'duration': 8}

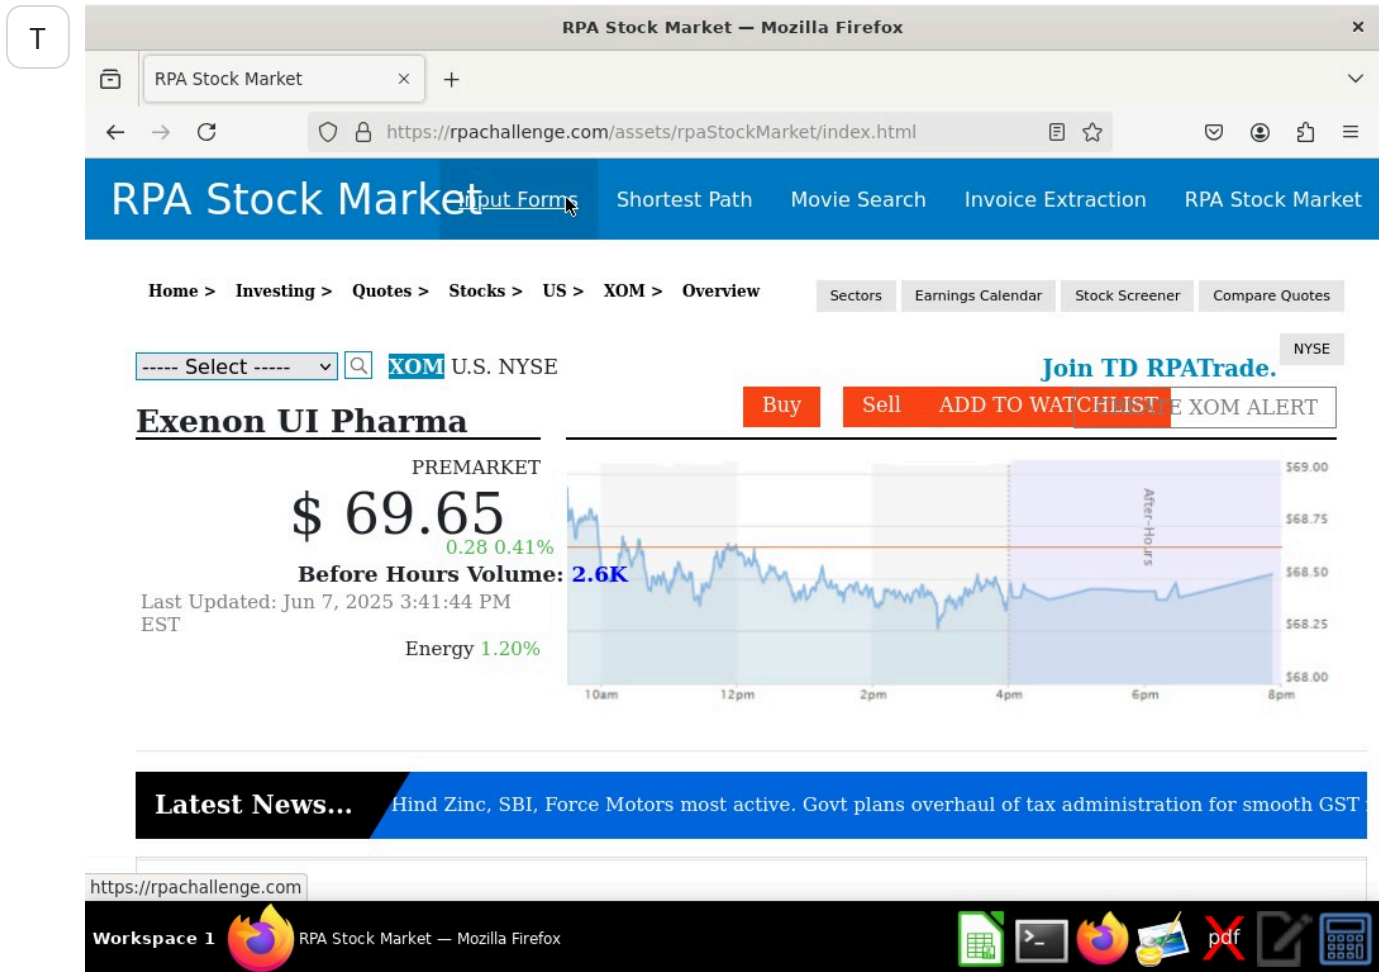

The price is now **71.85** at 3 : 41 : 32 PM. It's getting close to the 70 threshold! Let me continue monitoring:

Tool Use: computer

Input: {'action': 'wait', 'duration': 5}
