Workspace 1 challenge.xlsx - LibreOffice Calc Rpa Challenge — Mozilla Firefox

I can see the RPA Challenge form is loaded in Firefox, and I can see several form fields including Phone Number, Company Name, Address, Last Name, Role in Company, and First Name. However, I need to see the spreadsheet data to know what values to enter in row 9. Let me download the Excel file first to see the data.

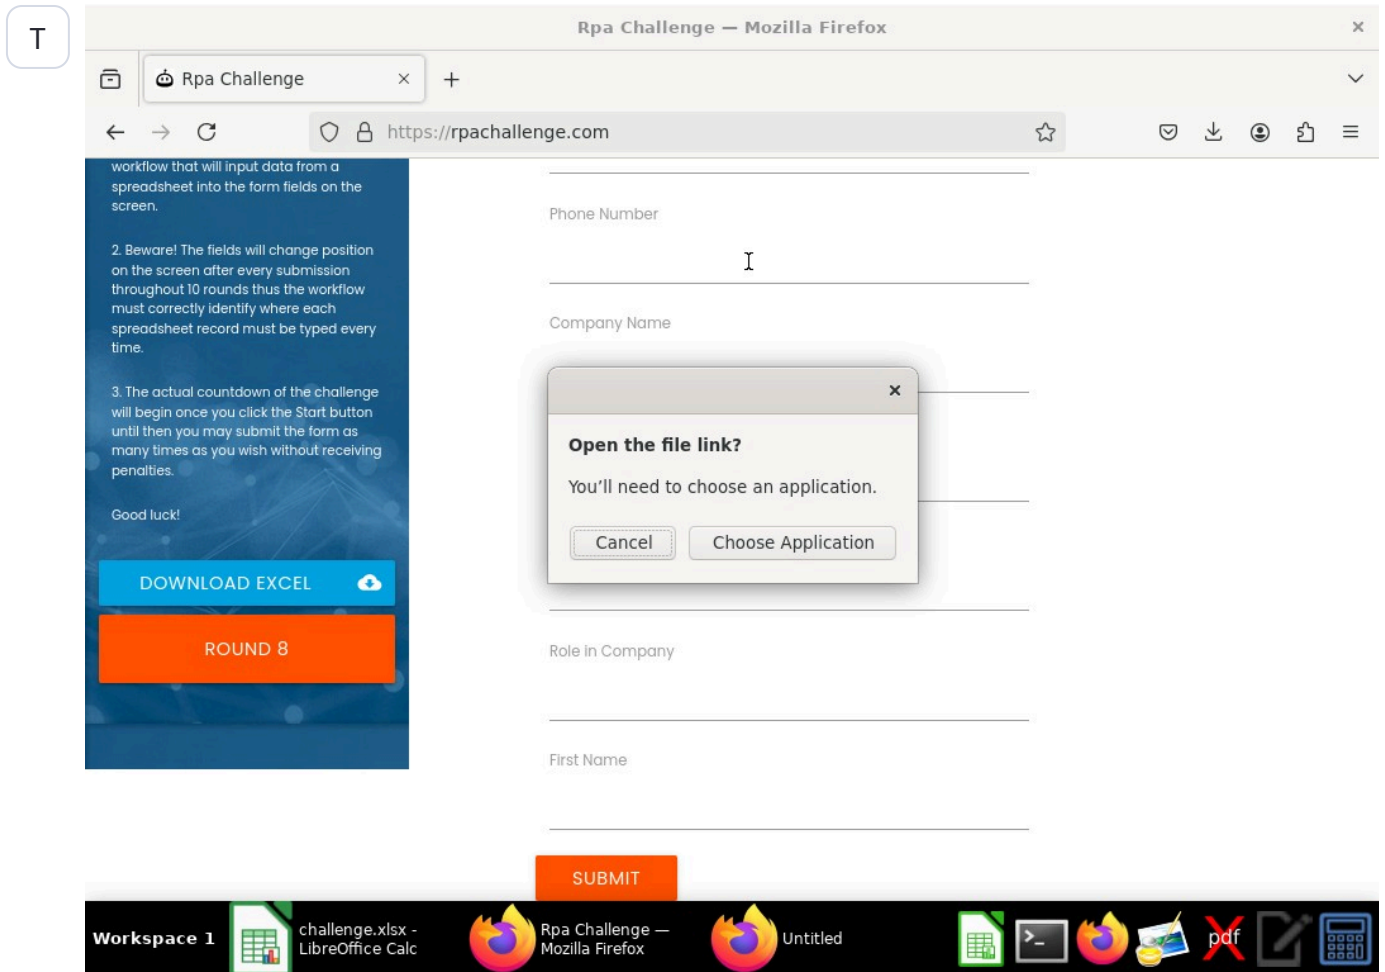

Tool Use: computer

Input: `{'action': 'left_click', 'coordinate': [110, 456]}`

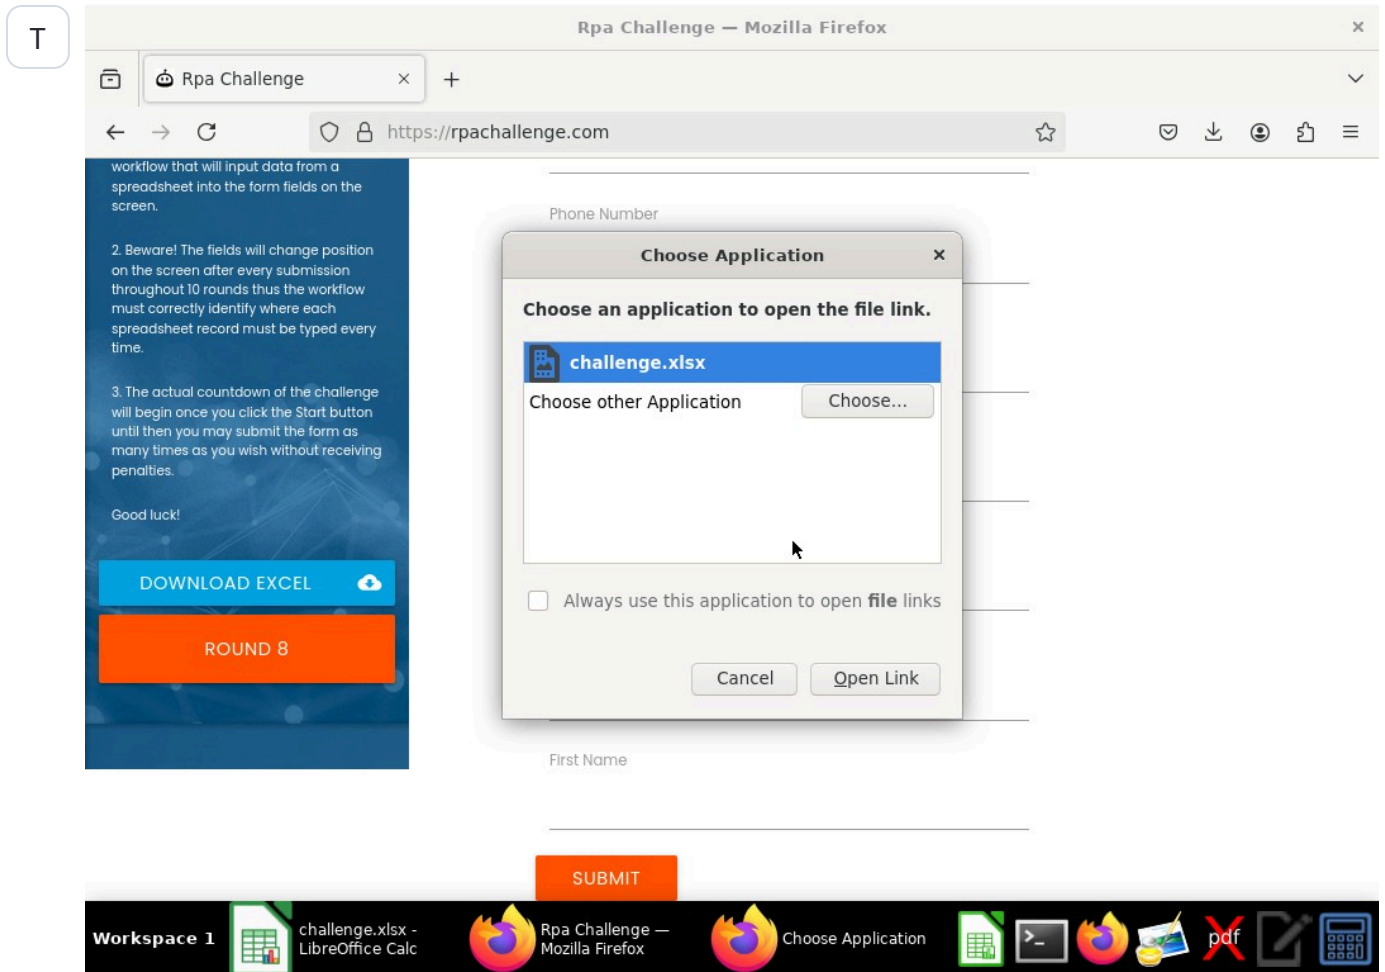

I can see the download menu has appeared. I'll click on one of the challenge Excel files to download it.

Tool Use: computer  
Input: {'action': 'left\_click', 'coordinate': [524, 203]}

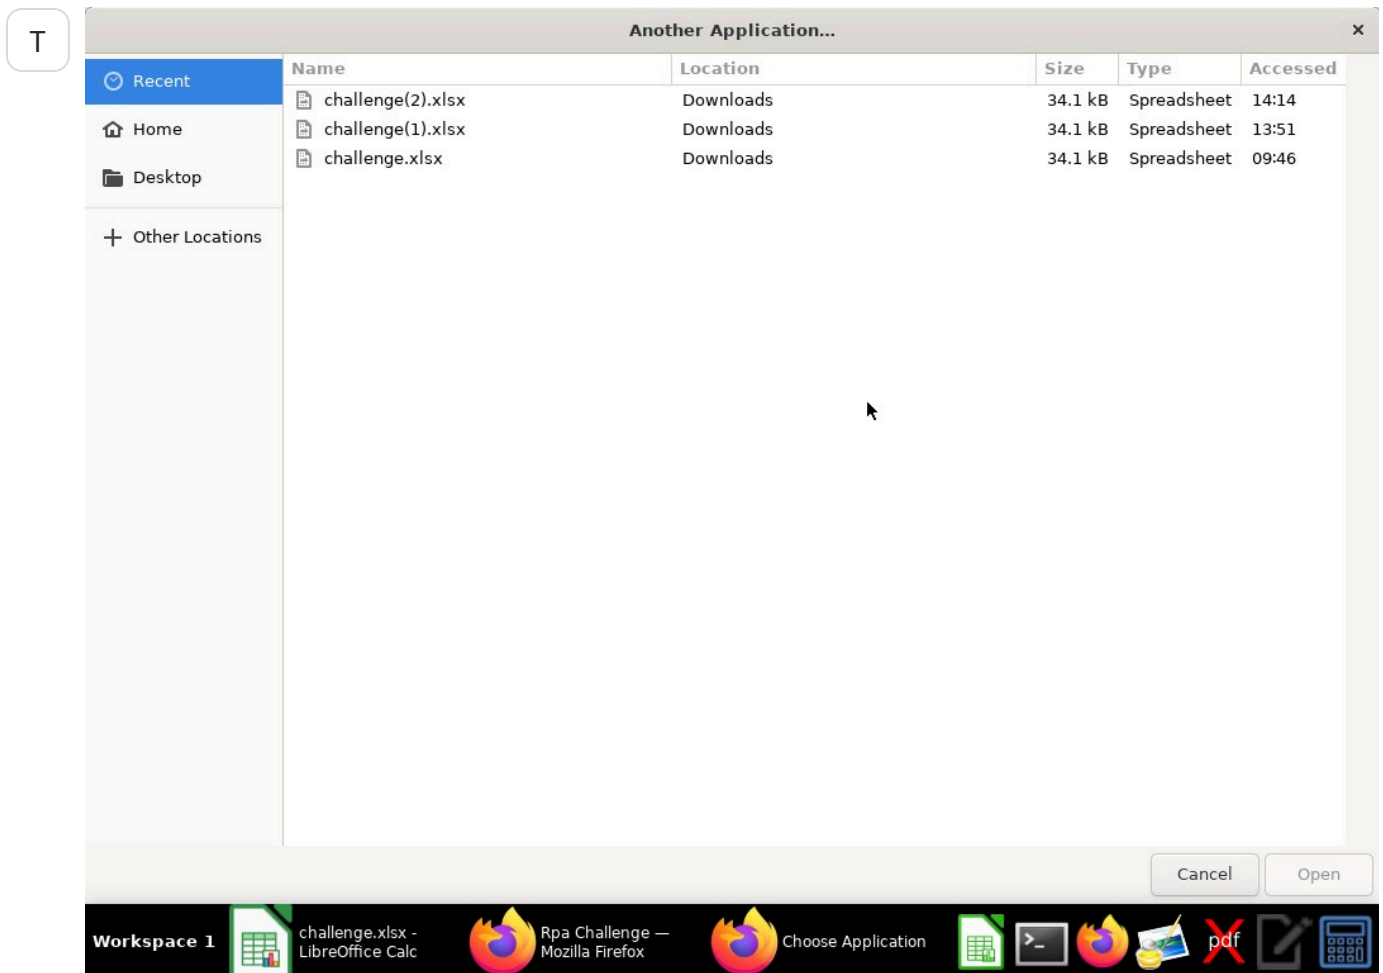

I see a dialog asking to choose an application to open the file. I'll choose an application that can handle Excel files. Let me click "Choose Application".

Tool Use: computer  
Input: {'action': 'left\_click', 'coordinate': [559, 424]}

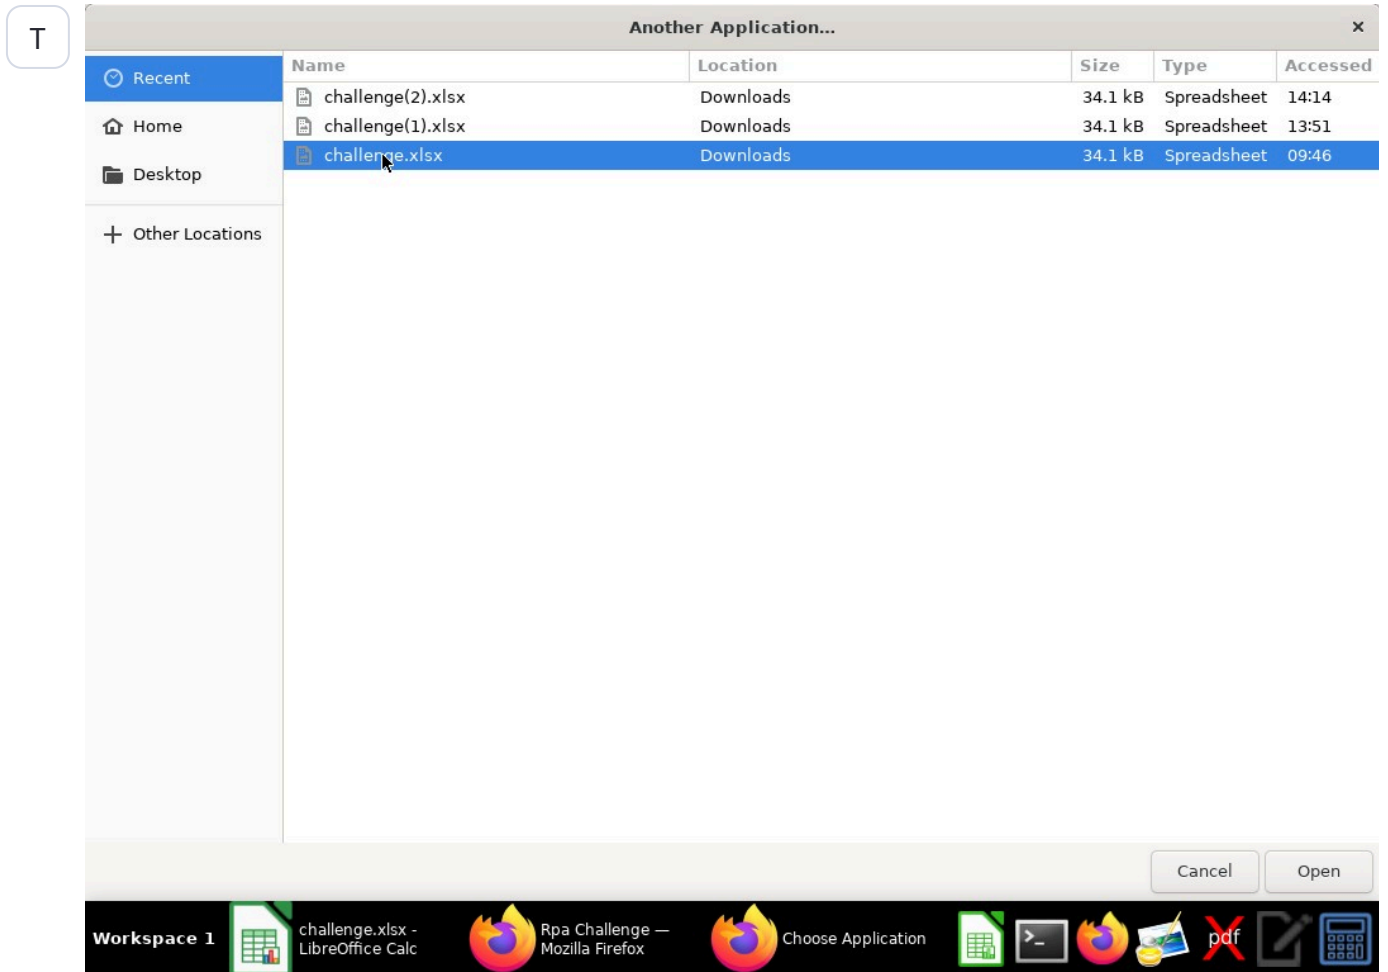

I can see the choose application dialog. I notice there's an option to "Choose other Application". Let me click on that to find LibreOffice Calc which should be able to open the Excel file.

Tool Use: computer  
Input: `{'action': 'left_click', 'coordinate': [618, 312]}`

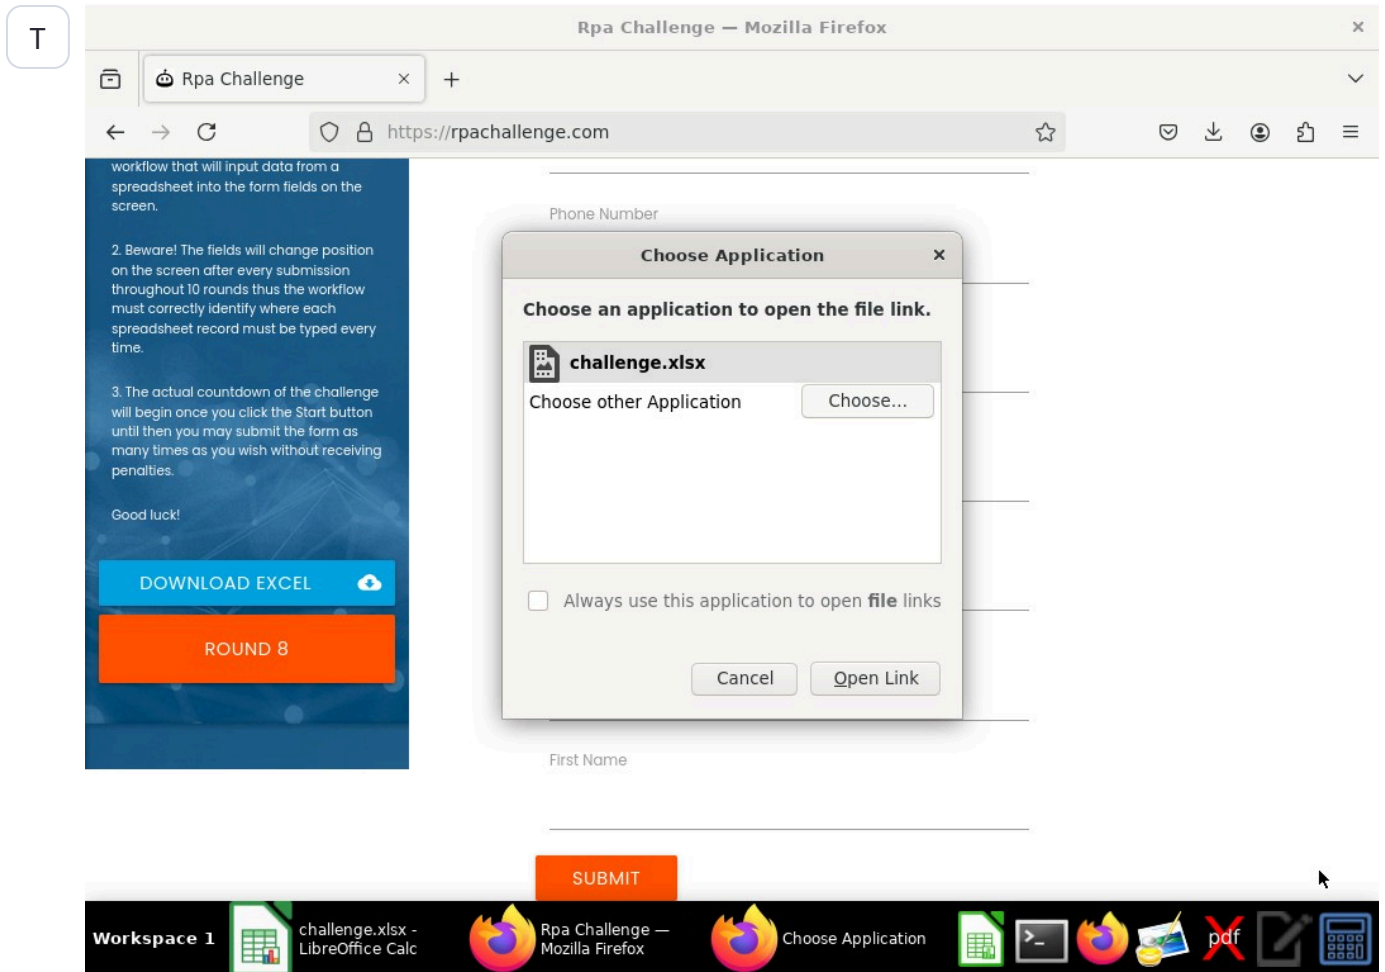

Great! I can see the file browser and there are already the challenge.xlsx files in the Downloads folder. I can see one of them (challenge.xlsx) - let me select it and open it.

Tool Use: computer  
Input: `{'action': 'left_click', 'coordinate': [235, 119]}`

Good, I've selected the challenge.xlsx file. Now I'll click "Open" to open it.

Tool Use: computer  
Input: {'action': 'left\_click', 'coordinate': [975, 684]}

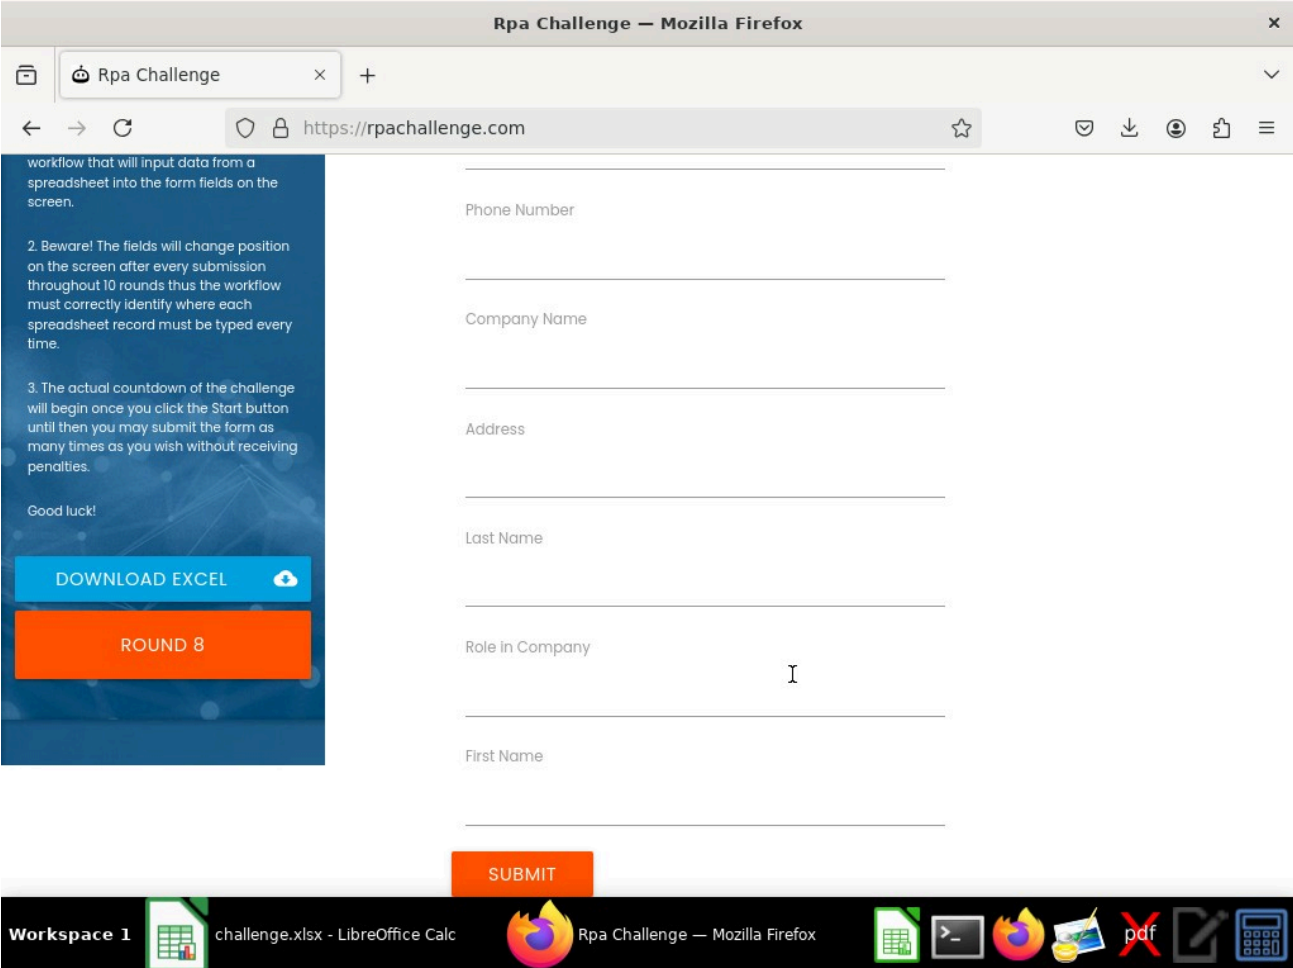

I'm back to the application chooser dialog. Let me click "Open Link" to try to open the file.

Tool Use: computer  
Input: {'action': 'left\_click', 'coordinate': [625, 532]}

T

 Good! I can see that LibreOffice Calc is now open in the taskbar (I can see "challenge.xlsx - LibreOffice Calc" in the taskbar). Let me click on it to view the spreadsheet data.

 Tool Use: computer  
Input: `{'action': 'left_click', 'coordinate': [264, 737]}`

Sheet1

Sheet 1 of 1 PageStyle\_Sheet1 English (USA) Average: ; Sum: 0 75%

Workspace 1 challenge.xlsx - LibreOffice Calc

Perfect! Now I can see the Excel spreadsheet with all the data. I can see the column headers and the data rows. Looking at row 9 (which would be the 9th data row, counting from row 2 since row 1 has headers), I can see:

Row 9 data:

- First Name: Stan
- Last Name: Hamm
- Company Name: Sugarwell
- Role in Company: Advisor
- Address: 10 Dam Road
- Email: [hamm@sugarwell.org](mailto:hamm@sugarwell.org)
- Phone Number: 40712462257

Now let me go back to the Firefox window to fill in the form with this data from row 9.

Tool Use: computer

```
Input: {'action': 'left_click', 'coordinate': [549, 737]}
```

Good, I can see the form has these fields visible:

- Phone Number
- Company Name
- Address
- Last Name
- Role in Company
- First Name

I notice there's no Email field visible in this form, which is different from the spreadsheet that has an Email column. Let me start filling in the form with the data from row 9. I'll start with the Phone Number field.

Tool Use: computer

Input: `{'action': 'left_click', 'coordinate': [556, 191]}`
