1)open firefox 2)goes to https://rpachallenge.com/assets/rpaStockMarket/index.html 3)Click select 4)Select the exenon Ui Pharma 5)Tell me when the price drop below 70

I'll help you open Firefox, navigate to the RPA challenge website, select Exenon Ui Pharma, and monitor when the price drops below 70. Let me break this down into steps.

First, let me take a screenshot to see the desktop:

```
Tool Use: computer
Input: {'action': 'screenshot'}
```
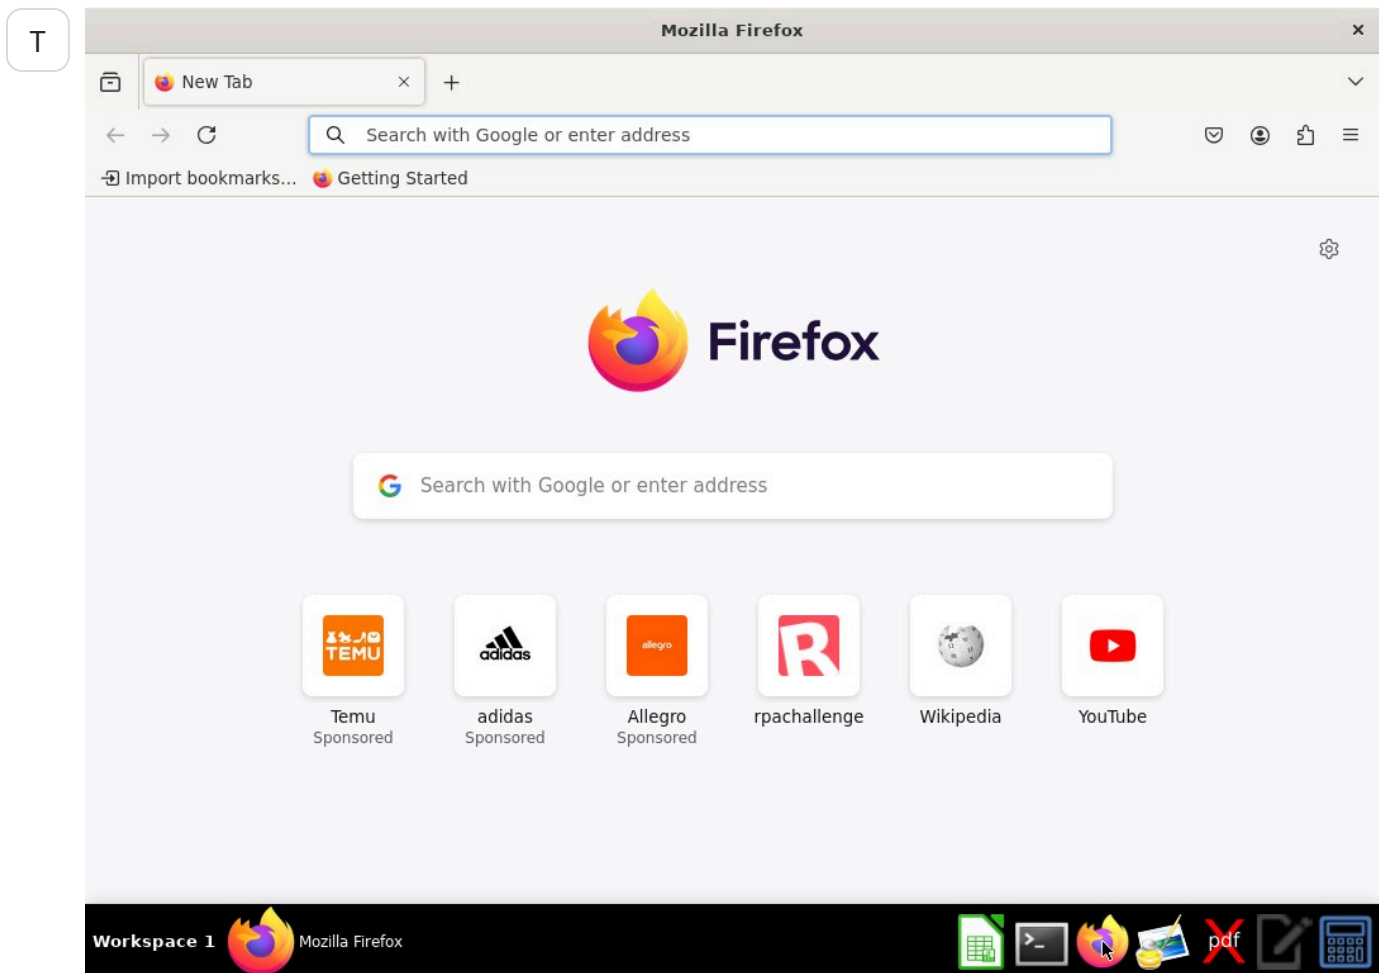

T

Workspace 1

I can see the desktop with the taskbar at the bottom. I can see the Firefox icon in the taskbar. Let me click on it to open Firefox:
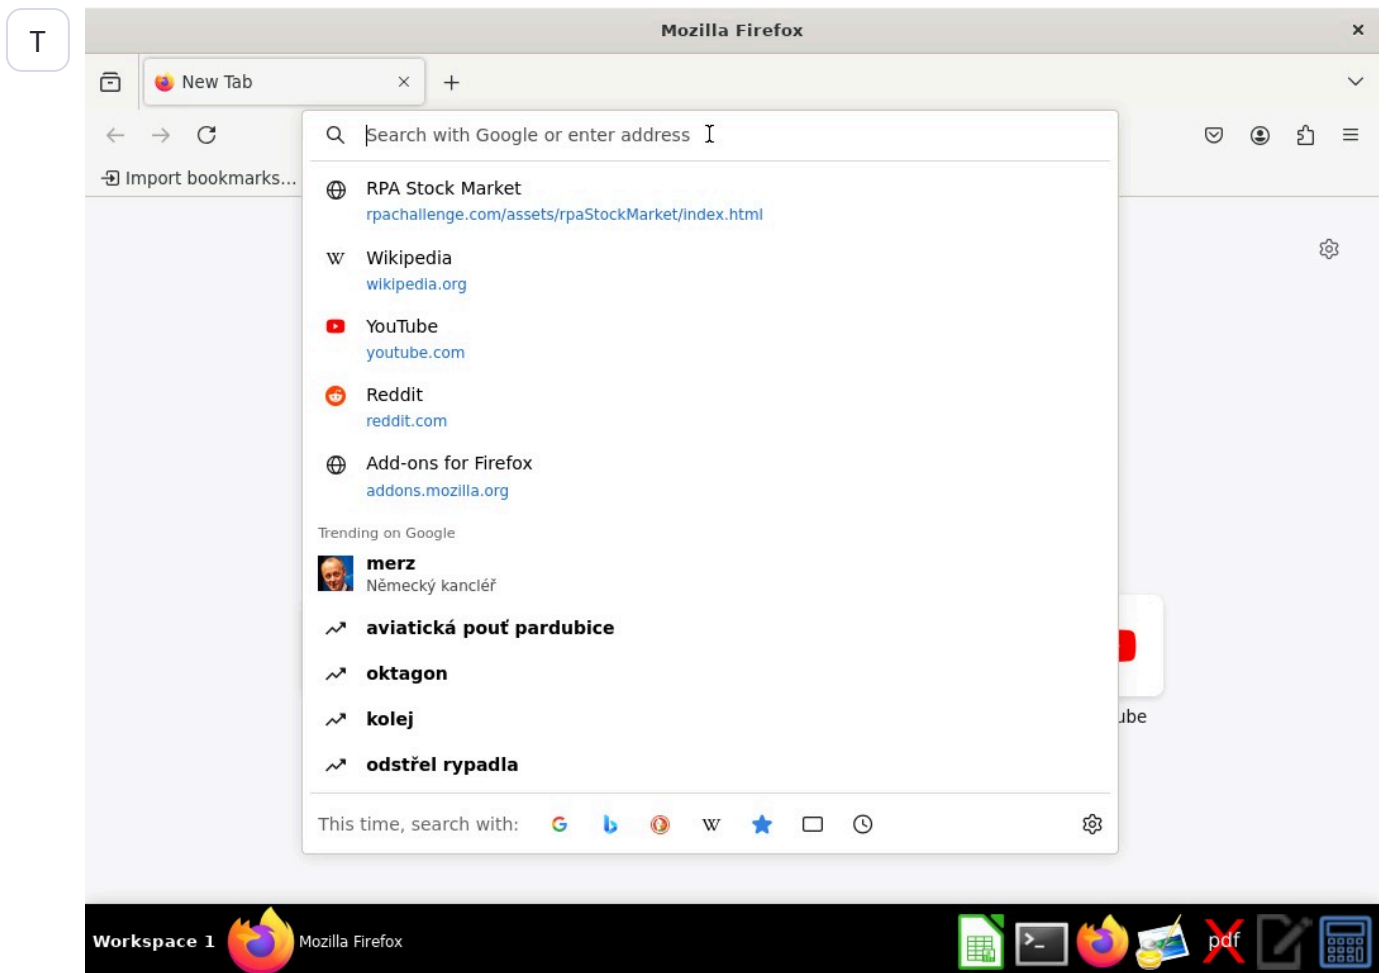

```
Tool Use: computer
Input: {'action': 'left_click', 'coordinate': [804, 738]}
```

Great! Firefox has opened. I can see it has the new tab page open. Now I need to navigate to the specified URL. I'll click on the address bar and enter the URL:

```
Tool Use: computer
Input: {'action': 'left_click', 'coordinate': [493, 100]}
```

T

Perfect! I can see the address bar is active and there's even a suggestion for "RPA Stock Market" with the URL I need. I'll click on that suggestion:

```
Tool Use: computer
Input: {'action': 'left_click', 'coordinate': [378, 153]}
```
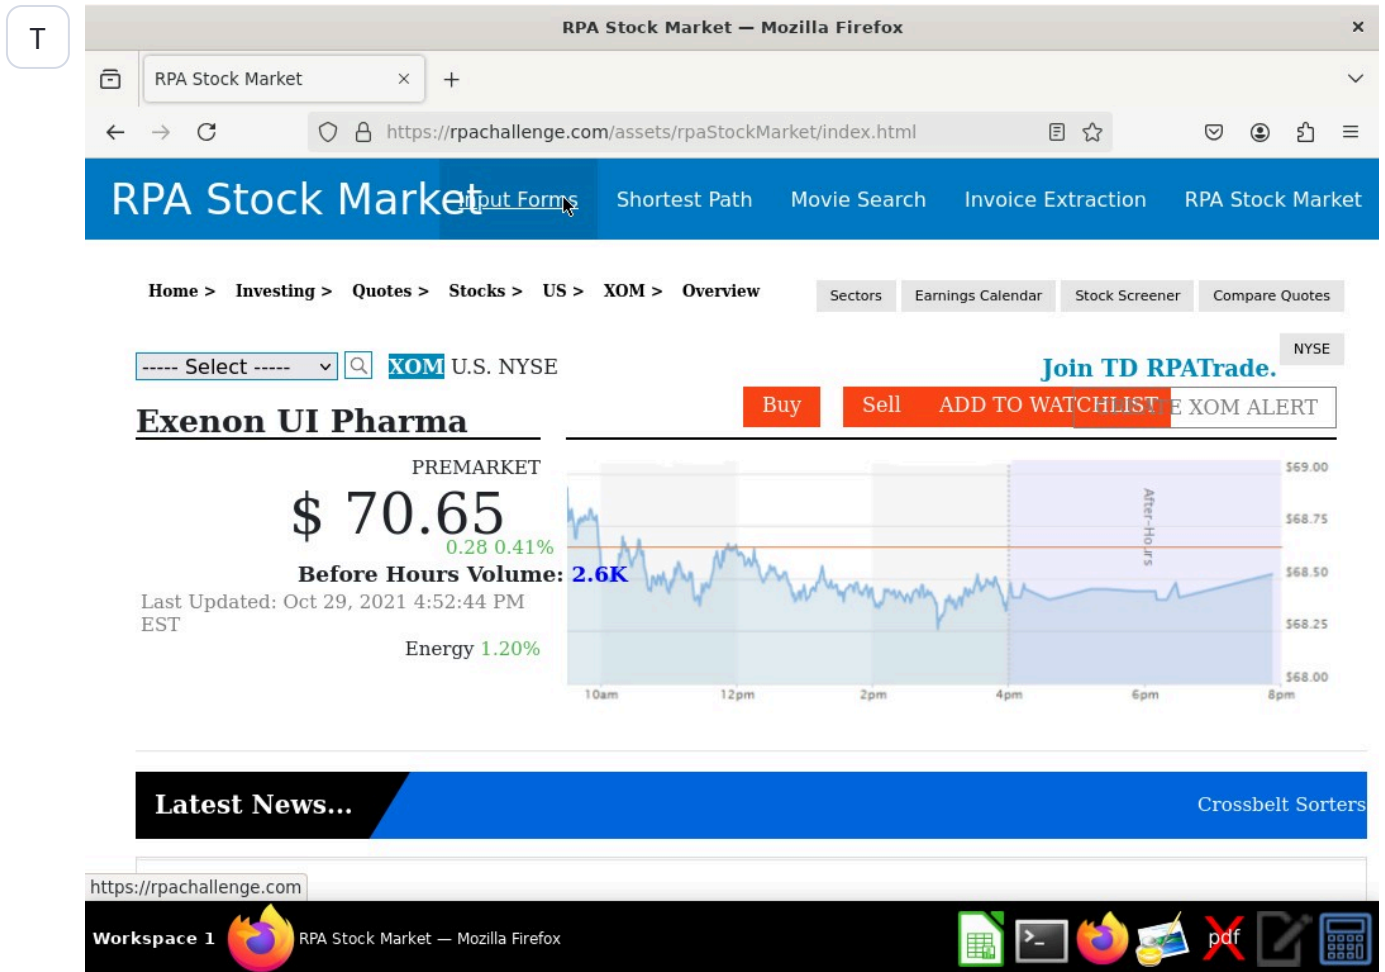

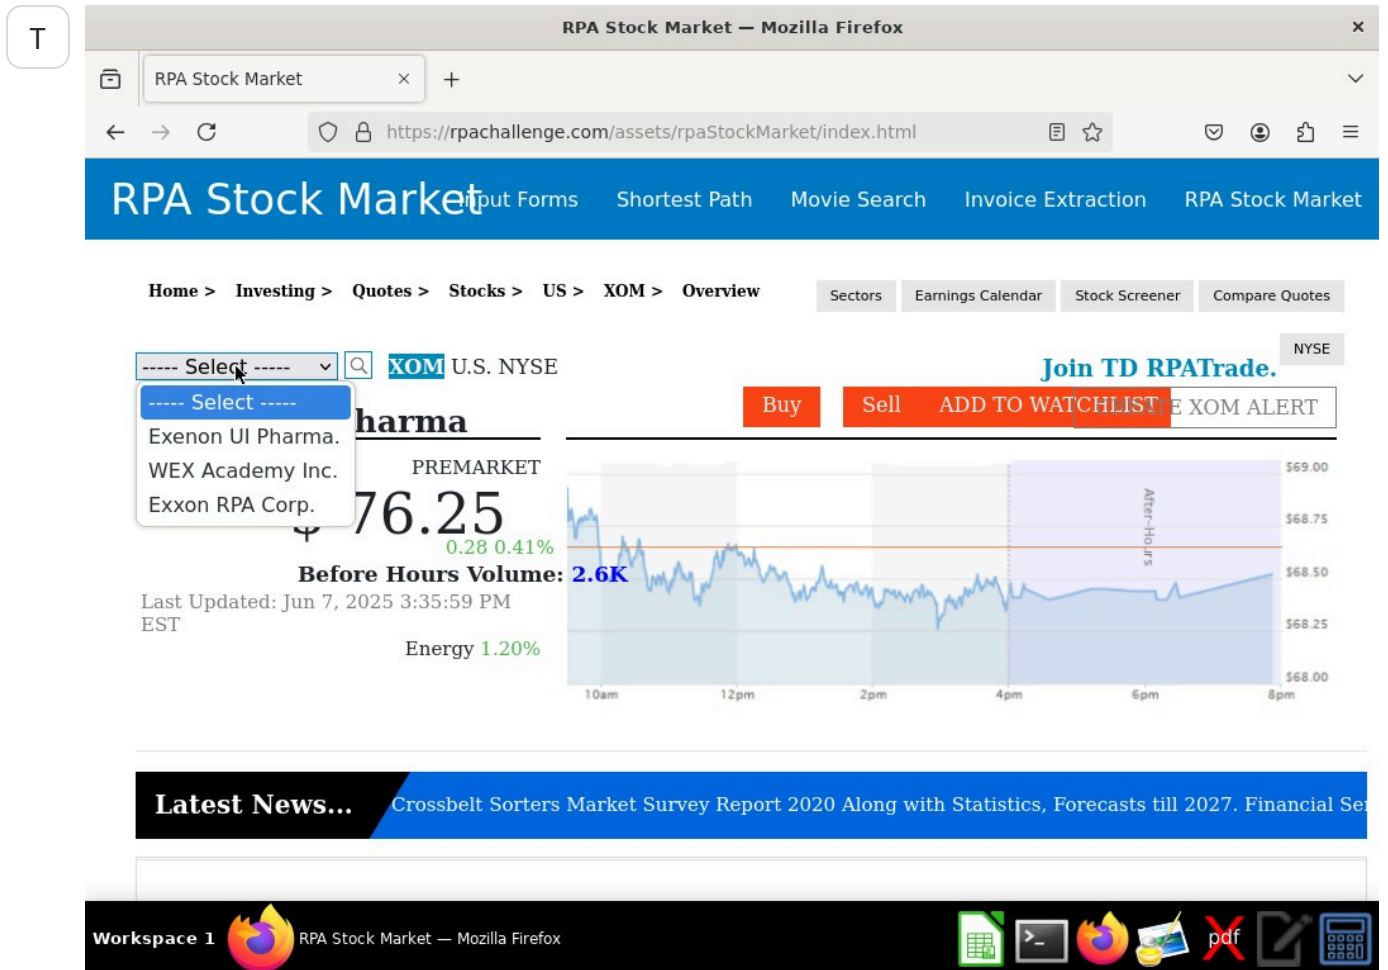

Excellent! I can see the RPA Stock Market website has loaded. I can see:

1. There's a "Select" dropdown at the top left
2. "Exenon UI Pharma" is already displayed with the current price of $70.65
3. The price is currently above 70 (it's 70.65)

However, I notice I should click on the "Select" dropdown to choose "Exenon UI Pharma" specifically, even though it seems to be already selected. Let me click on the Select dropdown:

```
Tool Use: computer
Input: {'action': 'left_click', 'coordinate': [119, 286]}
```

Workspace 1 | 🦊 RPA Stock Market — Mozilla Firefox

🤖 Perfect! I can see the dropdown menu is now open and shows several options:
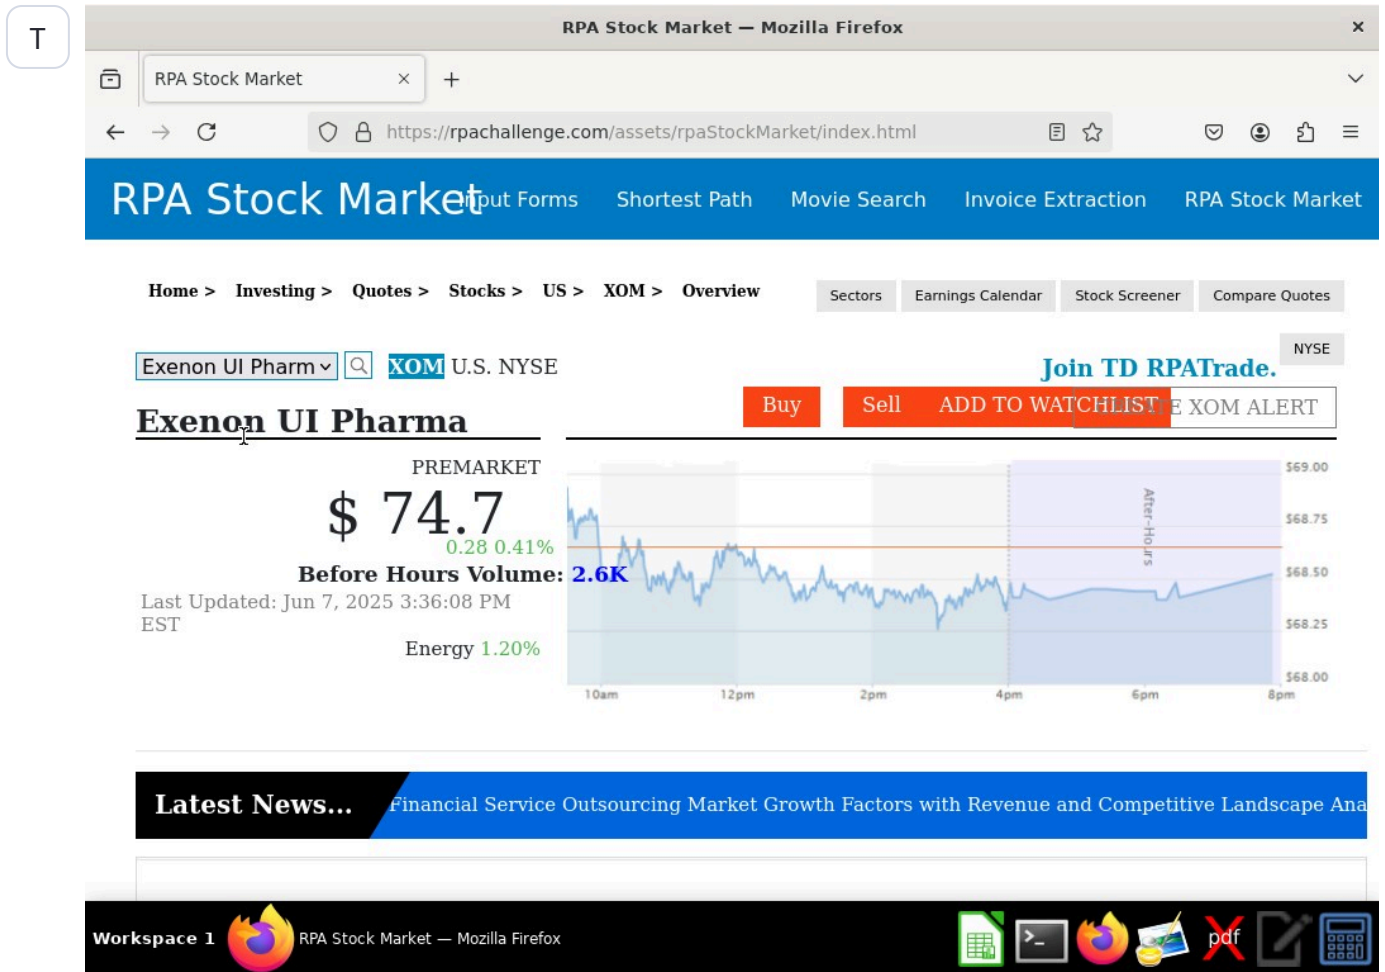

- ----- Select -----
- Exenon UI Pharma
- WEX Academy Inc.
- Exxon RPA Corp.

I can see that "Exenon UI Pharma" is one of the options. Let me click on it to select it:

🤖
```
Tool Use: computer
Input: {'action': 'left_click', 'coordinate': [125, 341]}
```

Great! I have successfully:

1. ✅ Opened Firefox
2. ✅ Navigated to https://rpachallenge.com/assets/rpaStockMarket/index.html
3. ✅ Clicked select
4. ✅ Selected "Exenon UI Pharma"

Now I can see that Exenon UI Pharma is selected and the current price is **$74.7**, which is above 70. I need to monitor this price and tell you when it drops below 70.
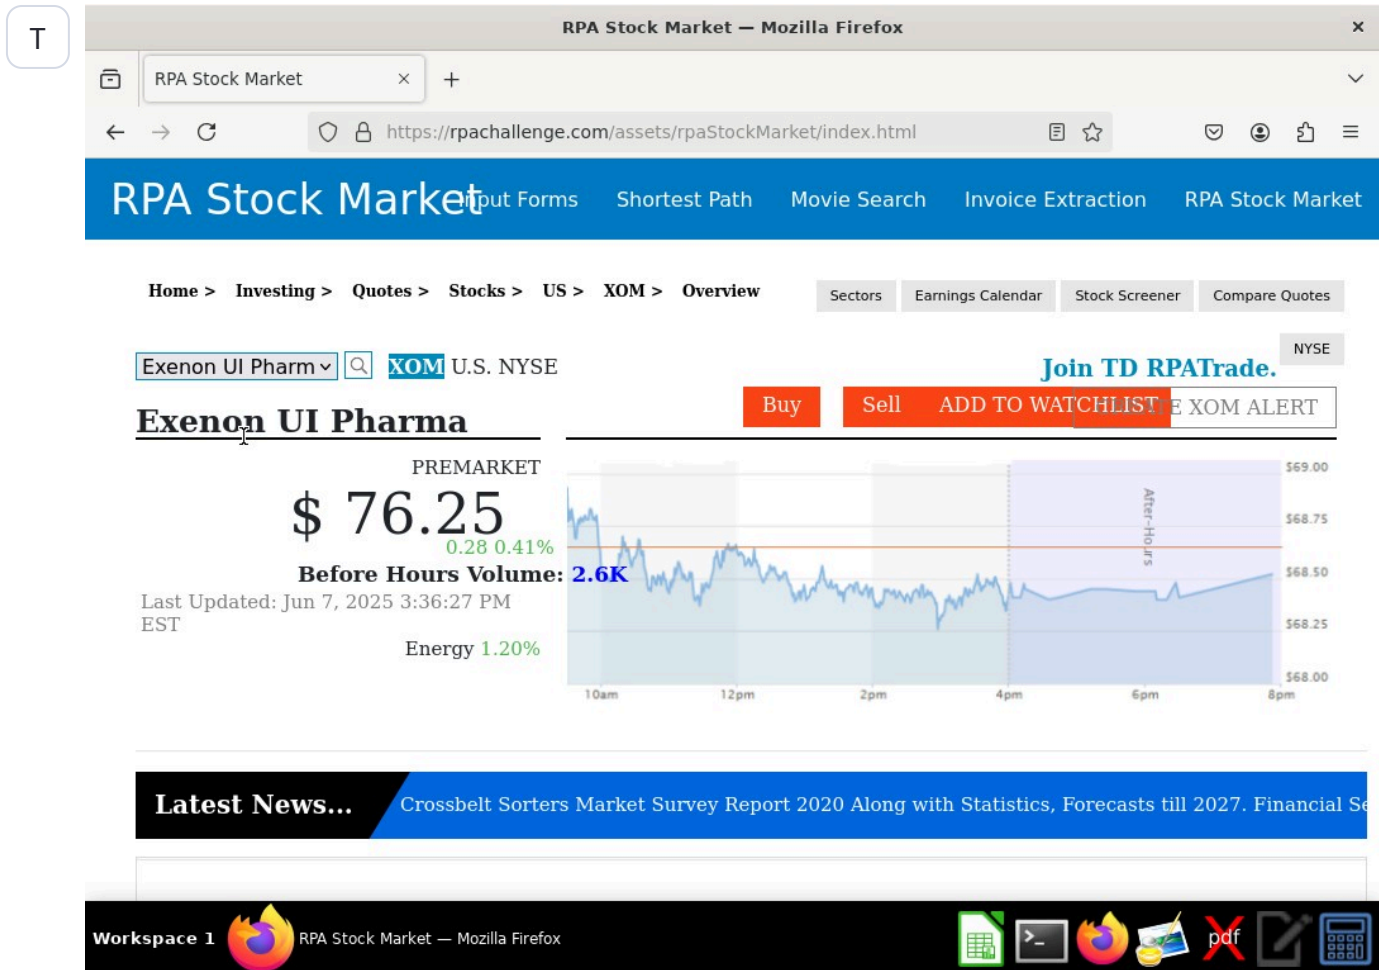

Let me start monitoring the price. I'll refresh the page periodically to check for price updates:

```
Tool Use: computer
Input: {'action': 'key', 'text': 'F5'}
```
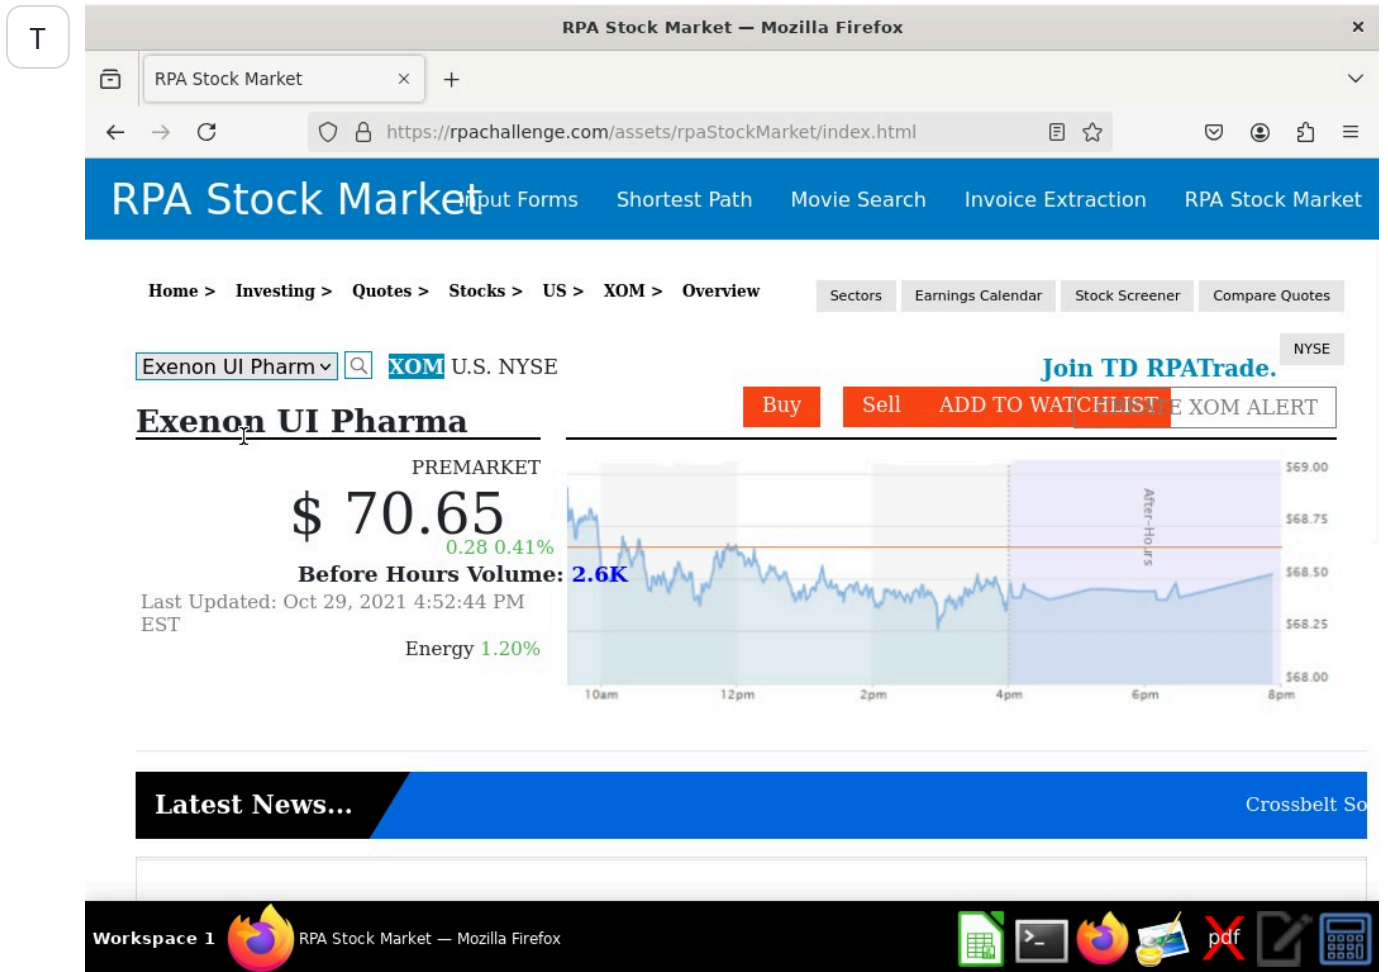

I can see the price has changed to **$70.65** after the refresh. This is still above 70, but it's very close! Let me continue monitoring by refreshing again after a short wait:

```
Tool Use: computer
Input: {'action': 'wait', 'duration': 3}
```

The price has increased to **$76.25**. Let me refresh the page again to continue monitoring:

Tool Use: computer
Input: {'action': 'key', 'text': 'F5'}
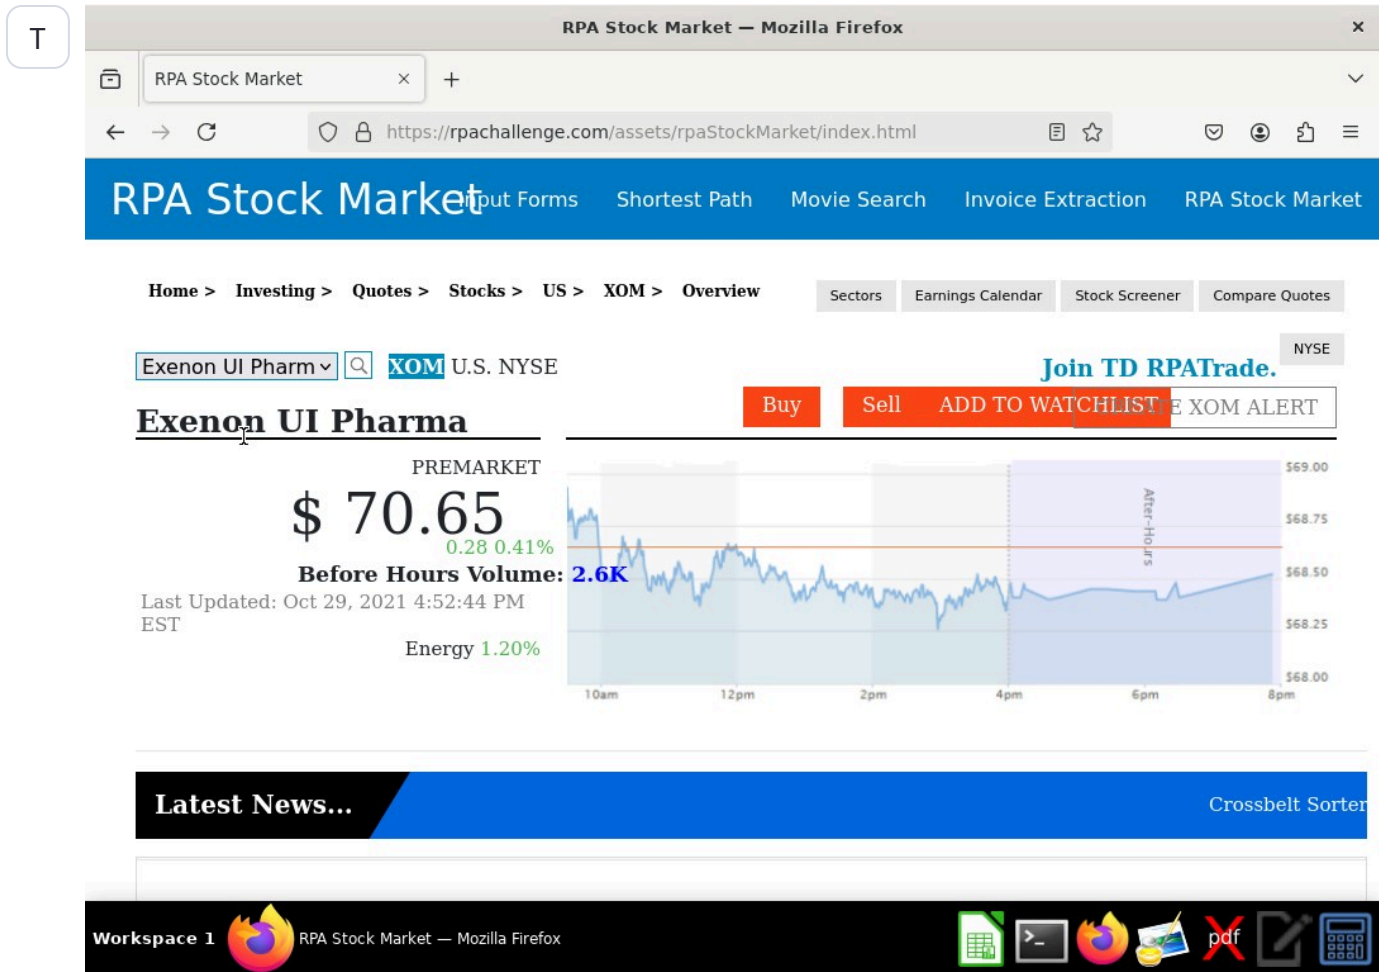

The price is back to **$70.65**. Let me wait a bit and then refresh again to continue monitoring:

Tool Use: computer
Input: {'action': 'wait', 'duration': 5}
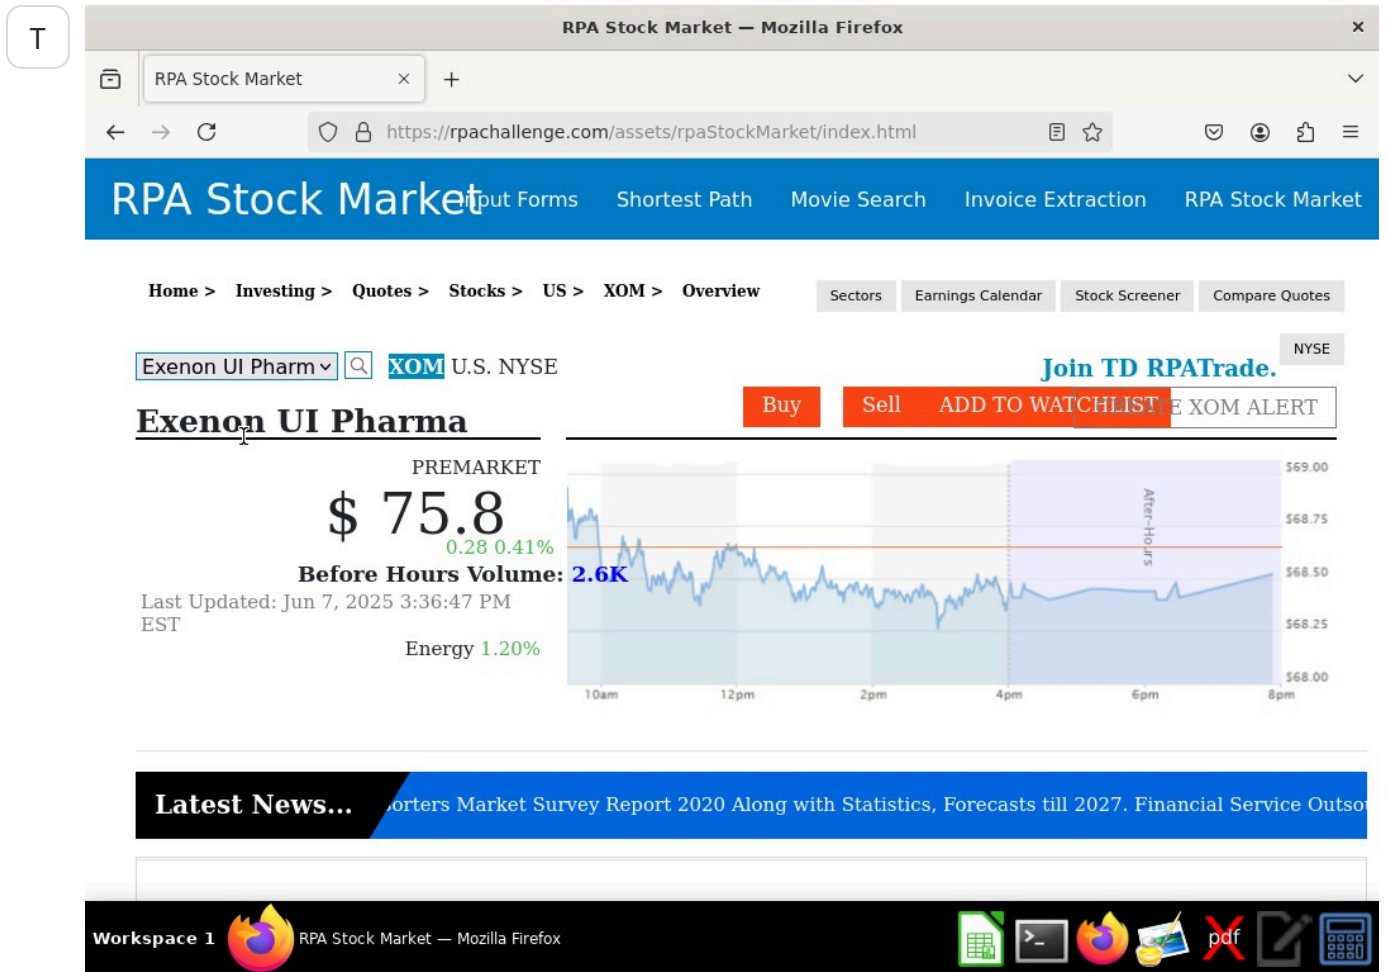

The price has increased to **$75.8**. Let me continue monitoring by refreshing:

Tool Use: computer
Input: {'action': 'key', 'text': 'F5'}
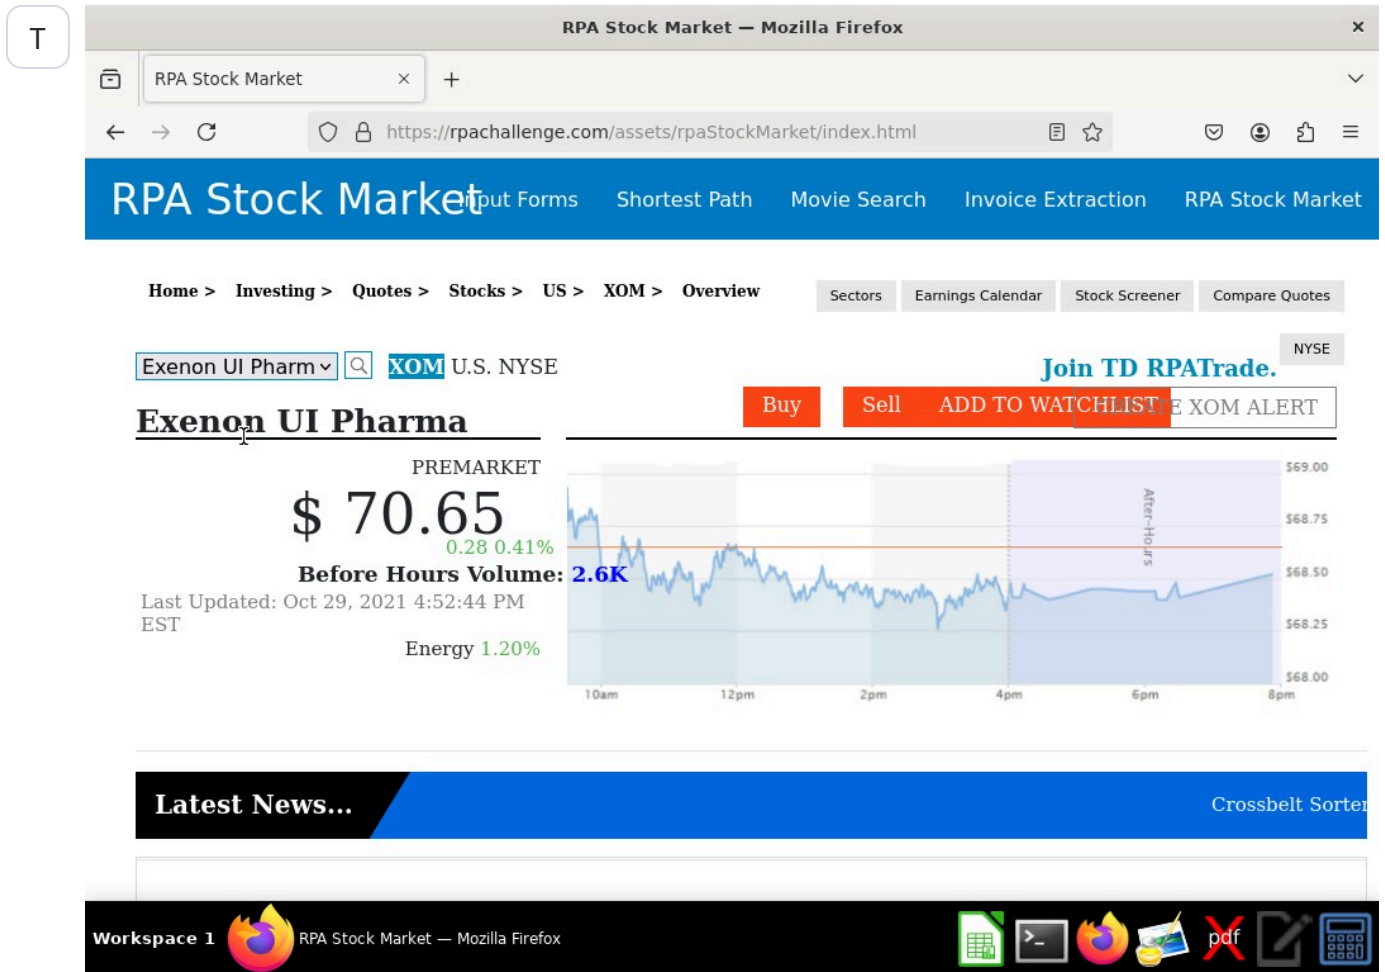

The price is back to **$70.65**. Let me wait a bit more and continue monitoring:

```
Tool Use: computer
Input: {'action': 'wait', 'duration': 3}
```
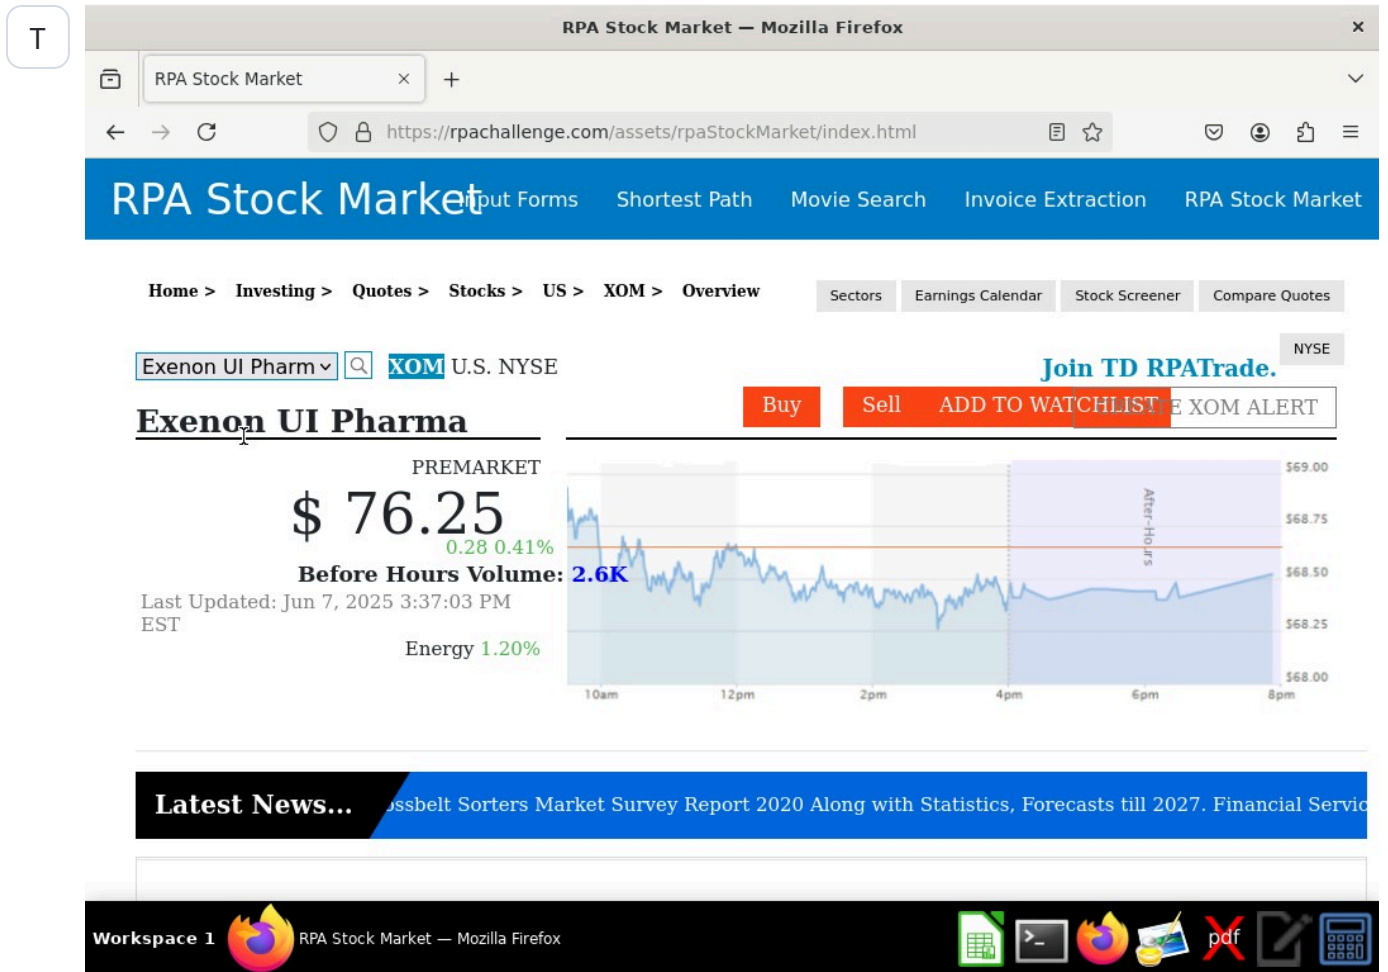

Price is now **$76.25**. Let me refresh again to keep monitoring:

```
Tool Use: computer
Input: {'action': 'key', 'text': 'F5'}
```

Price is **$70.65** again. Let me wait a bit and refresh once more to see if there's any downward movement:

```
Tool Use: computer
Input: {'action': 'wait', 'duration': 4}
```

Price is **$76.25**. Let me refresh again:

```
Tool Use: computer
Input: {'action': 'key', 'text': 'F5'}
```

Back to **$70.65**. Let me continue monitoring for a few more times to see if we can catch the price going below 70:

```
Tool Use: computer
Input: {'action': 'wait', 'duration': 3}
```
